A WOMAN-OWNED SMALL BUSINESS

INDUSTRIALSTRENGTHSUPPLY.COM

BACKGROUND

Industrial Strength Industries was founded to address the needs of law enforcement, first responders, and industrial clients in New York State who seek to include small businesses in their supply chain. With over 25 years of experience, Industrial Strength Industries can assist you in meeting your diversity and small business goals.

FOCUS

Our services center on sourcing from our network of search & rescue, scuba, tactical, and industrial manufacturers and distributors. Our objective is to service our client base with excellence. Contact us for your search & rescue, scuba, tactical, safety & industrial needs.

EXFIL® BALLISTIC SL HELMET

The EXFIL® Ballistic SL Helmet features a new lightweight composite shell providing a 15% weight reduction over the original EXFIL® Ballistic, while offering the same unique EXFIL® shell geometry for an optimal fit. The new EXFIL® Rail 3.0 accessory mounting system, which is 25% lighter than the previous EXFIL® Rail 2.0 system, is compatible with standard EXFIL® accessories and was designed in conjunction with the new EXFIL® Ballistic Visor. A new SL Shroud from Wilcox® provides a 35% reduction in weight from the previous Wilcox® W Shroud, while maintaining full NVG mounting capabilities and lanyard compatibility. The EXFIL® Ballistic SL utilizes the innovative, field-proven, boltless CAM FIT™ retention to quickly adjust to individual head shapes and Zorbium® foam liner to provide customizable comfort while protecting against blunt impact.

Available Colors: Coyote Brown, Ranger Green, Multi Cam or Black
Sizes: M/L or XL

ITEM #: CALL TO ORDER

EXFIL® BALLISTIC HELMET

The EXFIL® Ballistic Helmet features a hybrid composite shell for increased strength and a unique geometry for optimal fit. An innovative, boltless CAM FIT™ retention quickly adjusts to individual head shapes, providing comfort and stability. A Zorbium foam liner protects against impact and allows for an overhead communications headband. Customizable fit is achieved through a set of moveable comfort pads. A lanyard-compatible Wilcox shroud secures any standard NVG mount.

The EXFIL® Ballistic Helmet is available with your choice of accessory rails: EXFIL Rail 2.0 or EXFIL Rail 3.0. The EXFIL Rail 2.0 accessory mounting system is compatible with most EXFIL accessories and features T-slots for custom mounting. The EXFIL Rail 3.0 accessory mounting system is compatible with all EXFIL accessories, including the EXFIL Ballistic Visor and the EXFIL Face Shield.

Available Colors: Coyote Brown, Ranger Green, MultiCam® or Black
Sizes: M/L or XL

ITEM #: CALL TO ORDER

EXFIL® LTP BUMP HELMET

The EXFIL® LTP (Lightweight, Tactical, Polymer) bump helmet provides impact protection for maritime environments and a stable, comfortable platform for mounting night vision and other accessories. The built-in NVG shroud utilizes an integrated machined aluminum shroud insert. The helmet features a Zorbium® foam liner along with a CAM FIT™ Retention System with easily adjustable Cam Lock sliders and a micro-adjustable BOA® Fit System.

Available Colors: Coyote Brown or Black
Sizes: M/L or XL

ITEM #: CALL TO ORDER

M-216™ BACKCOUNTRY

The M-216™ Backcountry helmet features a hybrid shell design; the ABS hard front shell provides reinforcement for mounted accessories, and an in-mold PC rear shell reduces weight.

The M-216™ Backcountry also comes standard with your choice of a Princeton Tec® Switch MPLS or Switch Rail task light that will mount directly onto the front section of the helmet rail.

Available Colors: Black/Gray, MultiCam® Alpine/Gray, MultiCam® Black/Gray, Red/Gray or White/Gray
Sizes: M/L or XL

ITEM #: M-216

EXFIL® SAR TACTICAL HELMET

The EXFIL® SAR Tactical Helmet is the first purpose built search and rescue helmet to provide tactical accessory mounting capabilities, including a standard NVG shroud, while meeting key industrial and mountaineering performance standards. The EXFIL® SAR is optimized for use with night vision devices, as it features a machined aluminum Wilcox® NVG shroud.

The helmet also includes a four-point CAM FIT™ retention system with chin cup for optimal stability and a BOA® Fit System to dial in precise fit adjustment while providing single-handed quick release. The EXFIL® SAR comes standard with two vent covers to prevent objects and debris from entering the crown vents of the helmet.

Available Colors: Black, White, Blue, High-Viz Green, Yellow, USCG Orange, or Red
Sizes: M/L or XL

ITEM #: CALL TO ORDER

AVON

PROTECTION

FM54

SINGLE MASK, MAXIMUM FLEXIBILITY

The Avon Protection fire hardened FM54 Air Purifying Respirator provides specialist operators maximum protection and total flexibility. The FM54 provides protection to the face, eyes and respiratory tract from Chemical, Biological, Radiological and Nuclear (CBRN) threats, Riot Agents, Toxic Industrial Chemicals (TICs) and Toxic Industrial Materials (TIMs) while maintaining extreme user flexibility as mission profiles change.

Features:

- The flexible, panoramic single lens visor minimizes visual stress and provides best in class field of view and compatibility with weapons sights and night vision equipment, while providing ballistic protection and scratch resistance
- Vision correction assembly for prescription lenses. Fail safe, high flow hydration system
- 6 point fire hardened skull cap head harness with low profile pre-adjusted brow straps
- A full range of filters are available to meet the variety of needs that the FM54 can address
- Ruggedized integrated mode selector

Available Colors: Black

ITEM #: FM54

C50

FIRST RESPONDER RESPIRATOR MASK

The Avon Protection C50 protective mask is based on the U.S. M50/JSJGM and shares key technologies to provide maximum protection against CBRN Agents, TICs and TIMs.

Features:

- High flow fail safe drinking device allows connection to either a canteen or bladder type hydration system
- Front mounted exhale valve allows clear direct communication
- Filter canisters are side mounted on either left or right side, minimizing interference and allowing improved capability for shoulder mounted devices
- Compatibility with helmets, CBRN protective clothing and NFPA Class 3 Suits due to the low profile, close contour brow, flat buckles and extended chin flap
- 3 sizes providing secure and comfortable fit for all facial shapes and sizes

Available Colors: Black

ITEM #: C50

MP-PAPR

MULTI-POSITION POWERED AIR PURIFYING RESPIRATOR

A departure from traditional rigid plastic construction systems, the Avon MP-PAPR is the world's first flexible PAPR unit, constructed from the same field proven chlorobutyl rubber as used for the Avon 50 series masks.

Features:

- Automatic flow control adjusts to filter type and maximizes battery life
- Dual speed function – automatically reduces flow rate
- Crush-proof hose with dual wall construction
- Military pedigree plastics used for superior resistance
- Battery Life > 8 hrs running at a flow rate of 120 lpm
- Constant flow rate through filter reduces inhalation resistance
- Increased protection factor up to 5 times more than APR

Available Colors: Black

ITEM #: MP-PAPR

ST54

ENHANCED MULTI-MISSION TACTICAL OPERATOR SCBA

Avon Protection offers three variations of the ST54, designed to meet the operator's requirements. These systems combine with Avon Protection respirators to provide new and innovative modular breathing apparatus technology to provide positive pressure SCBA and/or PAPR capability.

Features:

- The most comfortable tactical SCBA set we've ever made
- Broad, padded shoulder straps and ergonomic back frame
- World's smallest, most compact chemically hardened demand valve
- Can mount respirator on either side for class leading integration with tactical gear and weapons
- Non-locking black painted brass cylinder valve
- Ability to silence alarms for critical missions
- Easy access chest mounted pressure gauge
- Two piece composite back frame

Available Colors: Black

ITEM #: ST-54

GENTEX®

BALLISTIC FAST XP

A platform that delivers value, effective coverage, and ballistic protection. This ballistic shell provides more coverage and better protection than our FAST SF helmet, at a slightly higher weight. An Ops-Core Skeleton Shroud delivers universal compatibility with NVG mounts.

Ops-Core ARC Rails and external VELCRO® Brand fasteners provide additional attachment locations for other accessories such as visors, mandibles, handgun face shields, and ballistic appliques. It's available with four suspension/retention options.

Available Colors: Urban Tan, Ranger Green, Black, MultiCam®, or Urban Gray
Sizes: M/L or XL

ITEM #: CALL TO ORDER

FAST SF CARBON COMPOSITE

Our most advanced non-ballistic helmet. The vented carbon composite shell is optimized for use with communications headsets and delivers total modularity. Skeleton Ops-Core ARC Rails and Ops-Core ARC Shims offer increased functionality. Anti-scratch coating is available and a lightweight Modular Bungee Shroud reduces snagging with integrated NVG retention. The Vented Lux Liner enables stability and comfort while fully loaded and is available with three suspension retention options.

- Lightweight, non-ballistic shell made of a hybrid design of unidirectional composite carbon fibers
- High-performance evolution of the Ops-Core FAST Carbon High Cut Helmet System with improved comfort and increased stability

Available Colors: Urban Tan, Ranger Green, Black, MultiCam®, or Urban Gray
Sizes: M, L, XL, or XXL

ITEM #: CALL TO ORDER

FAST® XR

The FAST XR offers rifle round levels of protection at a weight that makes it comfortable for extended use. Engineered to protect up to 7.62x39mm lead core rifle rounds and with a shell weight of just 1.72 lbs., the XR is the lightest helmet on the market to offer this level of protection while retaining quick-kit configurability for mission-critical accessories.

Lightweight Modular Bungee Shroud (MBS) reduces snag hazards and features carabiner clips to improve NVG retention and stability while reducing interference with other rail-mounted accessories.

PowerPath ARC Rail system provides a lightweight mounting solution for Ops-Core headborne ecosystems.

Available Colors: Tan 499, Black, Ranger Green, MultiCam®, or Urban Gray
Sizes: M, L, XL, or XXL

ITEM #: CALL TO ORDER

AMP® COMMUNICATION HEADSET

For leading-edge tactical ear protection and unprecedented audio quality, choose the Ops-Core AMP® Communication Headset. This advanced tactical communications headset integrates seamlessly with Ops-Core helmets and accessories to create a lightweight protective headborne system for any mission and environment.

AMP's unique 3D Hear-Through Technology and optional NFMI earplugs provide double hearing protection that restores and enhances natural hearing and sound localization while maintaining clear communication for enhanced situational awareness. With a noise-cancelling microphone that mitigates all background noise, AMP is the ideal communications headset to wear in any unpredictable combat environment.

Available Colors: Tan 499, Foliage Green, Black, or Urban Gray
Available in CONNECTORIZED, FIXED DOWNLEAD (Amphenol and U174 versions)

ITEM #: CALL TO ORDER

SOTR Replacement Filters. Easy to change out, keep a supply of these fresh, highly efficient, filters at hand.

The SOTR O2 Harness is an accessory that allows users to attach their SOTR directly to their ARC Rails.

ITEM #: CALL TO ORDER

MYSTERY RANCH®

MYSTERY RANCH BLITZ 35

- Durable fabric and hardware choices combined with top-loading access and thoughtful organization make for a cross-functional EDC.
- A low-profile, removable pocketed waist belt allows you to have access when you want it or keep it streamlined.
- Quick access via the body panel gets you directly to the tools you need with a padded, floating laptop sleeve that fits laptops up to 15".
- Regardless of what the day has in store, the three main pockets and ample PALS webbing keep you organized and offer the ability to accessorize.
- Both side and lower compression straps offer flexibility and function for whatever extras you need to bring along.

Available Colors: Black, Coyote, or Forest

ITEM #: BLITZ 35

MYSTERY RANCH KOMODO DRAGON

- KOMODO DRAGON uses the Futura yoke to adjust to different torso lengths and accommodate the extra girth of armor.
- It has the BVS system to make the pack more stable over armor and the bolsters are removable to lower the pack's profile when not wearing armor.
- Inside, it has a MOLLE panel for radio mounts plus detail pockets, three hydration sleeves and a Spadelock mount for attaching accessories. The waist belt stows away when not in use.
- Internal Frame is an HDPE (high-density polyethylene) sheet that provides rigidity and yet is flexible.
- The BVS-Bolstered Ventilation and Stability system allows for a stable, secure fit over body armor and can be easily removed.

Available Colors: Coyote or MultiCam®
Sizes: S, M/L, or XL

ITEM #: KOMODO DRAGON

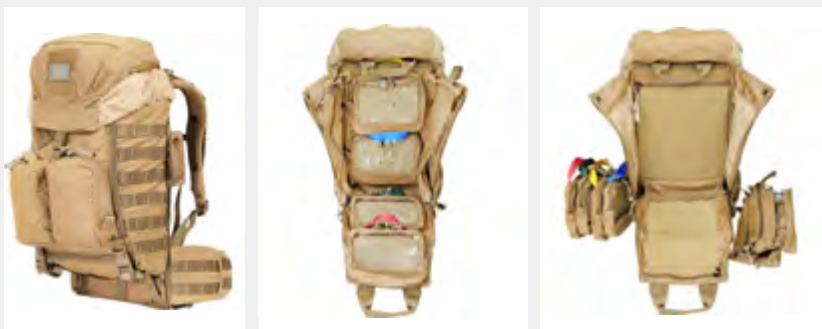

MYSTERY RANCH GUNFIGHTER 24

A low-profile, everyday pack that supplies the mission-specific needs you require.

- Fixed harnessing
- Top zipper port for antennae, cables, and hydration access
- External detail pocket for documents or ID
- Outer side stretch-woven pockets for mags or hydration
- Large outer pocket for mags or sustainment
- D-rings for securing the zippers
- VELCRO® on lid for identification and patches
- Two internal zip mesh pockets

Available Colors: Coyote or MultiCam®
Sizes: S-M/L or XL

ITEM #: GUNFIGHTER 24

NICE RATS (RAPID ACCESS TRAUMA SYSTEM)

The Rapid Access Trauma System (RATS) pack is a front line medic bag. Designed for quick, one-handed access to organized medical supplies, the RATS has removable internal pockets with clear vinyl windows and two IV bag pockets.

- Attach the RATS to a NICE Frame for additional capacity to carry litters or combi tools.

Available Colors: Coyote or MultiCam®
Sizes: S-M/L or XL

ITEM #: NICE RATS

PROJECTILES - VXR™

These finned, long-range projectiles for the VKS PRO™ and TRP™ are spin-stabilized and offer greater kinetic impact, distance and accuracy than round projectiles.

Features:

- Ultrasonically Welded
- Spin Stabilized
- Shell Color Indicates Payload
- 100% Waterproof
- Non-Flammable
- Operational Temperature of -30°F to 150°F

VXR™ LIVE-MAXX™

The VXR™ LIVE-MAXX™ offers greater distance and accuracy when compared to a standard round ball projectile. Exclusive MAXSAICIN process for greater bio-availability and effect. Use for direct impact, area saturation and crowd control situations.

VXR™ LIVE-X™

The VXR™ LIVE-X™ projectile offers greater distance and accuracy when compared to a standard round ball projectile. Best suited for direct impact, area saturation and crowd control situations.

VXR™ Inert™

Containing a harmless, scented powder, the VXR™ INERT™ projectile offers greater distance and accuracy when compared to a standard round ball projectile. Best suited for training and direct impact when PAVA exposure is not desired.

VXR™ Marking™

The VXR™ Marking™ projectile contains a paint solution that can be used to mark suspects for later apprehension and/or marking doors, openings, or objects for identification.

ITEM #: CALL TO ORDER

TAC-SA™

This semi-automatic launcher is the perfect tool for crowd management, riot-control scenarios or any situation requiring high-intensity engagement. It quickly disperses PAVA across expansive areas making it a solid tool for operational teams.

Features:

- Rugged Construction
- Feeds Up to 10 Projectiles Per Second With EL-2™ Hopper
- Compatible With Round Projectiles
- Variable Universal ASA With ON/OFF Valve
- 30ci High Pressure Air System
- MIL-STD-1913 Rail Platform
- SplitShot™ Compatible
- No Recoil
- Cross-bolt Safety
- Range of 0-60ft for Direct Impact
- Velocity of 280-300fps for Round Projectiles

Available Color Options: Yellow or Black/Yellow

ITEM #: CALL TO ORDER

VKS PRO PLUS™

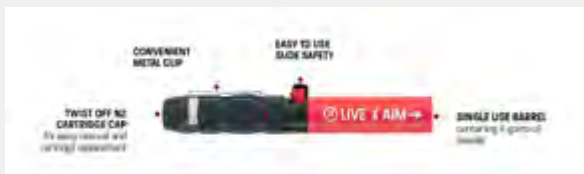

The new VKS PRO PLUS is the ultimate multi-payload, long-range, semi-automatic launcher. This effective non-lethal option is exceptionally accurate, and comes with a 15 cubic inch 4500psi capacity carbon fiber tank and red dot sight.

Features:

- Solid Reinforced Construction
- Lighter and More Compact Design
- Enhanced 15 Cubic Inch 4500psi Capacity Carbon Fiber
- Red Dot Sight (removable)
- Round and VXR™ Projectile Compatible Magazine
- No Recoil
- Flip Safety Switch
- SplitShot™ Compatible
- M-LOK Handguard
- Ambidextrous Quick Disconnect Sling Mount
- Adjustable Folding Foregrip

Available Color Options: Black, or Black Yellow

ITEM #: CALL TO ORDER

BLAST™

The PepperBall BLAST is an ideal short range solution for Law Enforcement and Corrections. With a 3x powder payload per shot the BLAST is effective for up to a 10 ft distance and is refillable. Available in INERT and LIVE-X concentrations.

ITEM #: CALL TO ORDER

GARMIN®**FENIX® 7 PRO - SAPPHIRE SOLAR EDITION**

You're an athlete or adventurer training for life, and only the best will do. Get what you need to push your limits with the ultimate high-performance smartwatch series with optional solar charging and a built in LED flashlight, advanced training metrics and more.

Features:

- Battery life (smartwatch mode) Up to 18 days / 22 days with solar
- Display type: Sunlight-visible, transfective memory-in-pixel (MIP)
- Solar Charging
- LED flashlight
- Touchscreen
- Water rating: 10 ATM
- Garmin ECG App
- Sleep score and insights
- Training readiness
- Training status
- Daily suggested workouts
- Multi-band GPS
- Built-in mapping
- Garmin Pay™
- Music storage

ITEM #: 010-02777-10

**INSTINCT® CROSSOVER - STANDARD EDITION**

You don't let others influence you — you go against the grain. Here's a rugged hybrid smartwatch that does the same by combining a classic analog experience with smart functionality.

Features:

- Battery life (smartwatch mode): Up to 28 days
- Display type: Monochrome, sunlight-visible, transfective memory-in-pixel (MIP)
- Water rating: 10 ATM
- Sleep score and insights
- Training readiness
- Training status
- Daily suggested workouts
- Garmin Pay™

ITEM #: 010-02730-13

**TACTIX® 7 - STANDARD EDITION**

You want to be field-ready. You want a specialized GPS with tactical features, a built-in flashlight, routable TOPO mapping and more.

Features:

- Battery life (smartwatch mode) Up to 28 days
- Display type: Sunlight-visible, transfective memory-in-pixel (MIP)
- Solar Charging
- LED flashlight: (white/green)
- Touchscreen
- Water rating: 10 ATM
- Sleep score and insights
- Training readiness
- Training status
- Daily suggested workouts
- Multi-band GPS
- Built-in mapping
- Garmin Pay™
- Music storage

ITEM #: 010-02704-00

**ENDURO™ 2**

You're an ultra racer. You need a multisport GPS watch that can go to extremes — with solar charging, incredible GPS battery life and built-in mapping to help you stay ahead of the pack.

Features:

- Battery life (smartwatch mode): Up to 34 days 46 days with solar
- Display type: Sunlight-visible, transfective memory-in-pixel (MIP) Water rating: 10 ATM
- Solar Charging
- LED flashlight
- Touchscreen
- Water rating: 10 ATM
- Garmin ECG App
- Sleep score and insights
- Training readiness
- Training status
- Daily suggested workouts
- Multi-band GPS
- Built-in mapping
- Garmin Pay™
- Music storage

ITEM #: 010-02754-00

The World's Sixth Sense®

FLIR FIRSTLOOK®
THROWABLE, RUGGED ROBOT

FirstLook is a throwable, rugged, and expandable robot that provides immediate situational awareness, performs persistent observation and investigates dangerous and hazardous material while maintaining a safer stand-off distance for operators. FirstLook allows operations where other robots can't fit or maneuver. This rugged, lightweight robot can be inserted into structures and provides operators with visual, audio, and sensor feedback before entry. The robot climbs small obstacles, overcomes curbs, turns in place and self-rights when flipped over.

Features:

- **THROWABLE, RUGGED, AND MANEUVERABLE**
Weighing 6.6 lb (3kg), FirstLook survives 16 ft (5 m) drops onto concrete.
- **HIGHLY MANEUVERABLE**
FirstLook climbs obstacles up to 7" (17.8 cm) high, overcomes curbs, turns in place and self-rights when flipped over.
- **POWERFUL MULTI-SENSOR CAPABILITY**
Four color cameras with zoom and illumination, plus audio capability are integrated into FirstLook. Optional CBRN/ HazMat sensors available.
- **CONTROLLABLE FROM THE UPOINT® MULTI-ROBOT CONTROL SYSTEM***
Using the touchscreen-based ruggedized tablet controller, an operator can select from across the family of connected robots.
- **SUPERIOR COMMUNICATIONS**
The MPU5 radio operating on the Wave Relay® MANET, allows the robot to penetrate deeper into complex structures and further downrange than ever before.
**Also controllable from the Game-Style Controller*

ITEM #: CALL TO ORDER

BLACK HORNET® PRS
AIRBORNE PERSONAL RECONNAISSANCE SYSTEM (PRS) FOR DISMOUNTED SOLDIERS

The Black Hornet PRS equips the non-specialist dismounted soldier with immediate covert situational awareness (SA). Game changing EO and IR technology bridges the gap between aerial and ground-based sensors, with the same SA as a larger UAV and threat location capabilities of UGVs. Extremely light, nearly silent, and with a flight time up to 25 minutes, the combat-proven, pocket-sized Black Hornet PRS transmits live video and HD still images back to the operator.

Features:

- **SQUAD-LEVEL IMMEDIATE SITUATIONAL AWARENESS**
Save lives and minimize collateral damage. Detect and identify threats day and night without being detected. Increase speed of movement and expand maneuver options.
- **NON-SPECIALIST NANO UAV SYSTEM**
At 1.3 kg and small enough for a dismounted soldier to carry on a utility belt, Black Hornet PRS deploys easily, with minimal training required.
- **BEYOND VISUAL LINE-OF-SIGHT CAPABILITY**
Expand visual range in complex and urban environments. Rapidly engage targets beyond visual line-of-sight, and conduct post-strike assessment.

ITEM #: CALL TO ORDER

SIRAS™
PROFESSIONAL DRONE WITH THERMAL AND VISIBLE CAMERA PAYLOAD

SIRAS is an affordable, easy-to-fly, IP54-rated professional drone with an interchangeable payload system for industrial and utilities inspection, firefighting, law enforcement, and search and rescue missions. With front collision avoidance, hot swappable batteries, a 31-minute flight time, and no restrictive geofencing, professional UAV pilots can fly safely when and where the mission demands.

Features:

- Fly within one minute of power on with no geofencing
- Maximize time in the air with 31 min flight time and hot-swappable batteries
- Maintain connection around obstacles with dual band 2.4/5.8 GHz
- Detect objects day and night with radar-based front collision avoidance
- Future proofed with quick-connect, swappable gimbal
- IP-54 rated dust and moisture resistance
- Measure temperature and zoom up to 5x with 640x512 Boson thermal camera
- Pinpoint details with 16MP visible resolution and 128x zoom

ITEM #: CALL TO ORDER

**L3HARRIS™**
FAST. FORWARD.

BNVD-1531 BINOCULAR NIGHT VISION DEVICE

The L3Harris BNVD-1531, the newest addition to our extensive portfolio of Image-Intensification (I2) systems, combines the most-desired features from the rugged, battle-proven AN/PVS-15 and AN/PVS-31 to deliver additional capability to the warfighter in a small, lightweight package.

Features:

- Includes Gen III I2 tubes with auto-gated technology to prevent damage in high-light environments
- High-performance white phosphor image with enhanced degree of detail in overall contrast and range of shades while providing the operator with more visual information for accurate assessment and acquisition
- Manual system gain and focus adjustments for custom image quality optimization
- Lightweight ergonomic design reduces head-borne weight and decreases neck strain
- Adjustable diopter eyepieces allows use by operators with differing visual acuity
- Integrated infrared illuminator for map reading
- Rotating binocular design allows low profile against helmet when in stowed position and the option to use as a single monocular
- Works with currently fielded dovetail helmet mounts
- Auto OFF when stowed; resumes power when deployed
- LED indicators in left and right monocular alert the operator when the BNVD has no less than 10 minutes of battery life remaining
- Replaceable/upgradeable I2 tube assemblies

ITEM #: CALL TO ORDER

NGAL NEXT GENERATION AIMING LASER

The L3Harris NGAL is a rugged, ultra-compact and lightweight system designed to be compatible with all generations of night vision devices. NGAL uses an advanced illuminator design to achieve a more uniform Near Infrared illuminator beam for increased situation awareness. High-efficiency electronics support increases system performance at reduced size, weight and power.

Features:

- Independent aim and illuminator boresight adjusters
- Co-aligned aiming beams with boresight retention ≤ 0.5 mrad
- Power levels adjustable based on customer requirements

VISIBLE AND INVISIBLE LASER RADIATION
AVOID EXPOSURE TO BEAM
CLASS 3B LASER PRODUCT

ITEM #: CALL TO ORDER

AN/PVS-31A - BNVD WHITE PHOSPHOR BINOCULAR NIGHT VISION DEVICE (BNVD)

The L3Harris AN/PVS-31A - BNVD is a compact, lightweight, Gen III dual-tube goggle with improved white phosphor tube technology for greater target detection and recognition. Low-light and nighttime maneuvers appear more natural in black and white, with added contrast detail in shapes and shadows providing the operator more visual information for assessment and acquisition. White phosphor provides varying shades of intensity between black and white (over black and green), resulting in better contrast and depth perception.

Features:

- Manual system gain and focus adjustments for custom image quality optimization
- Lightweight ergonomic design reduces head-borne weight and decreases neck strain
- Optional diopter lenses optimize operator preference for visual acuity
- Rotating binocular design allows low profile against helmet when in stowed position and the option to use as a single monocular
- Works with currently fielded dovetail helmet mounts
- Auto OFF when stowed; resumes power when deployed
- LED indicators in left and right monocular alert the operator when the BNVD has no less than 10 minutes of battery life remaining
- Replaceable/upgradeable I2 tube assemblies

ITEM #: CALL TO ORDER

EOTECH®

EOTECH HWS EXPS2™

The Model EXPS2 maximizes rail space with its compact size and allows for co-witnessing of iron sights. It has convenient side buttons to add a magnifier and features an adjustable, locking, quick-detach lever for easy attachment and removal. Also available with a green reticle that is approximately 6X easier to see than a red reticle in daytime.

Available Color: Black

ITEM #: EXPS2

EOTECH HWS EXPS3™

FASTER SPEED TO TARGET WITH ROOM TO WORK WITH IRON SIGHTS AND NIGHT VISION.

The HWS EXPS3™ is an excellent choice for professionals. The EXPS3 offers true two eyes open shooting for fast target acquisition, night vision compatible settings, and a 7mm raised quick detach base for lower 1/3 iron sight co-witness.

Available Color: Black or Tan

ITEM #: EXPS3

EOTECH EFLX MINI RED DOT SIGHT

3 or 6 MOA Red Dot A Reflex Sight.

Be the first to experience the best red dot pistol sight available on the market. The new EFLX Mini Reflex Sight is EOTECH's first venture into reflex technology optics and has already surpassed the standards of RDS technology, meeting the demands of any serious shooter.

Available Color: Black or Tan

ITEM #: EFLX

EOTECH MAGNIFIER G45™

FAST TRANSITIONING FROM 5X TO 1X

The G45.STS mini 5X Magnifier has the similar weight and dimensional properties as the existing G33 Magnifier, but with an additional 2X magnification for precision aiming at greater distances. The mount provides fast transitioning from 5X to 1X and the optic offers tool free vertical and horizontal adjustments with a large field-of-view. The G45 is compatible with all EOTECH HWS models.

Available Color: Black or Tan

ITEM #: G45

VUDU® RIFLE SCOPES

The EOTECH line of Vudu rifle scopes — where durability, precision and versatility meet. Vudu is engineered and constructed to meet the most rugged demands of the serious precision shooter. Starting from a solid piece of aircraft-grade aluminum and finished with the highest-quality AR-coated, high-density (HD) glass and surgically precise turret systems, the Vudu line of rifle scopes lets you deliver that critical shot when it matters most.

Available Color: Black

ITEM #: Vudu

Aimpoint®

3XMAG-1™

The Aimpoint® 3XMAG-1 Magnifier is a 3x power magnifying module built to withstand the demands of professional end-users. The 3XMAG-1™ can be paired with an Aimpoint red dot sight for target acquisition at longer distances or used as a 3X hand-held monocular. The 3XMAG-1 magnifier is optimized for use with the Micro T-2™/H-2™, Patrol Rifle Optic™, CompM4™ series, and CompM5™ series of sights providing a clear, crisp 2 MOA dot under 3x magnification. This magnifier configuration comes with the Aimpoint® FlipMount and TwistMount base that attaches easily to a picatinny rail (MILSTD- 1913). The FlipMount™ holds the magnifier in place behind the red dot sight on the optical axis. The magnifier can be quickly detached or flipped to the right or left side when no magnification is needed.

Unique Features:

- 3X Optical Magnification
- Compatible with Aimpoint red dot sights for longer range aiming or observation
- Variable (-3 to +3) dioptic setting
- Equipped with FlipMount & TwistMount base for easy picatinny rail (MIL-STD-1913) attachment and removal
- Can also be used as a handheld 3X monocular
- No re-zeroing needed when shifting between non-magnified and magnified aiming - utilizes the red dot in Aimpoint sights as the aiming reticle
- Ergonomic design for sure grip when used as a handheld observation tool

ITEM #: 200334

ACRO P-2™

Aimpoint revolutionized red dot pistol optics with the Acro P-1™. The all new Acro P-2™ represents the next generation of pistol mounted optics, taking things to an entirely new level. Built to endure the physical demands of semi-automatic pistol slides, the Acro P-2 includes a brighter, more efficient LED emitter coupled with a higher capacity CR2032 battery to provide over 5 years of constant-on use. Designed and tested to withstand the shock, vibration, extreme temperatures and material stresses generated by firing over 20,000 rounds of .40 S&W ammunition, the Acro P-2 goes above and beyond the call of duty.

ITEM #: 200691

COMP4™

The Aimpoint® CompM4 was designed for users who require a professional quality red dot optic for use under extremely harsh conditions. The CompM4™ is currently used and trusted by top tier end users throughout the free world. The U.S. Army has chosen a member of the Aimpoint CompM4 series of sights as their M68CCO (Close Combat Optic) for over two decades. Today, more than 1.5 million Comp series sights are in use worldwide.

Unique Features:

- 2 MOA red dot for precision and fast target acquisition
- Battery type: AA battery (included)
- High battery compartment
- Removable Rubber Bikini lens covers
- Front lens opening is threaded for addition of killFlash® anti-reflective device (ARD)
- Hard anodized non-reflective surface
- 16 brightness settings: 7 night vision compatible settings and 9 daylight settings
- 1X (non-magnifying) operationally parallax free optic

ITEM #: 12309

MICRO T-2™

The Aimpoint® Micro T-2 red dot optic was designed for users who require an extremely rugged, lightweight, and compact sight. The Micro T-2™ optic has unmatched optical clarity and can withstand the physical abuse necessary for demanding end-users. New innovative lenses with cutting-edge reflective coatings, radically improve the shape of the 2 MOA dot. Aimpoint red dot sights are operationally parallax-free, which means the visible dot remains parallel to the bore of your weapon no matter what angle your eye is in relation to the sight.

ITEM #: 200180UFST

FAST™ MICRO

The FAST™ Micro mount features built-in standard height back up iron sights that keep weapons uncluttered, without reducing capability. Both front and rear BUIS are completely adjustable for windage and elevation. The front sight post can be removed so that the rear BUIS aperture can be used with a traditional front sight such as our FUSION fixed or folding sights (if present), creating a more conventional sight radius.

Compatibility:

- Aimpoint® Micro (H1, H2, T1, T2, CompM5)
- Vortex® Optics Crossfire
- Sig Sauer® Romeo4T
- Holosun™ 503

Available Colors: *Black or Tan*

ITEM #: **CALL TO ORDER**

FAST™ OPTIC RISER

The FAST™ Optic Riser securely elevates direct-to-rail mounted red dot optics with a standard lower 1/3 co-witness picatinny mount to a 2.26" optical center line. The FAST™ Optic Riser provides an elevated M1913 Picatinny platform for direct attachment of optics, such as EOTech® EXPS, Vortex® UH-1 and other lower 1/3 co-witness optics. It can be paired with any FAST™ FTC (Flip-to-Center) magnifier mount.

FAST™ is a series of optic mounting solutions that provides end users with a quicker sight picture than standard height mounts. FAST™ mounts create a 2.26" optical centerline from the rail, which allows for more rapid visual processing of the battlefield by ensuring an ergonomically correct heads-up posture. Further, they provide faster and easier dot/reticle acquisition while wearing night vision goggles, protective masks, plate carriers and other gear.

Compatibility:

- All Direct-to-Rail Mounted Optics. Optimized for Lower 1/3 Height Optics.
- If you're running an absolute co-witness height optic, you need the FAST™ Absolute Riser.

Available Colors: *Black or Tan*

ITEM #: **CALL TO ORDER**

AXON™

The pinnacle of remote switch design for weapon-mounted accessories, AXON™ provides complete control of lights and lasers in a single, compact and rugged housing. AXON™ is the direct result of operational feedback from professional end-users on our industry-leading switch technology. Lights and lasers can be fired from individual buttons with versions available for popular issued devices. Its unique design provides tactile differentiation between the two buttons to eliminate confusion in dark, cold and high-stress situations.

Compatibility:

- SureFire®
- NATO Crane-Spec Port
- NGAL (LA-23/PEQ)
- Other Variations Available upon Request with MOQ

Available Colors: *Black or Tan*

ITEM #: **AXN-S**

PDK

PERSONNEL DECON KIT

PERSONNEL DECON KIT (PDK)

Destroy Fentanyl and other synthetic opioids, TICs, TIMs, CWAs and BWAs quickly and easily. The Personnel Decon Kit (PDK) allows any user to remove bulk decontamination with FiberTect wipes, then eliminate any remaining contaminants by using Dahlgren Decon for a variety of immediate, tactical, operational, and cold weather decontamination needs.

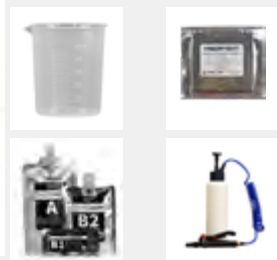

Features:

- Designed for individual use
- Training Configuration available with inert components
- Lightweight, portable decon kit
- Resealable for disposal
- Includes everything needed to perform Hybrid Decon including Dahlgren Decon and FiberTect
- KIT WEIGHT 2 lbs.

ITEM #: PDK-006-612/2 (ACTIVE)
ITEM #: PDK-006-612/2-T (TRAINING)

2DK

2-MAN DECONTAMINATION KIT

2-MAN DECON KIT (2DK)

Destroy Fentanyl and other synthetic opioids, TICs, TIMs, CWAs and other emerging threats quickly and easily. The 2-Man Decon Kit (2DK) allows any user to remove bulk contamination with FiberTect wipes, then eliminate any remaining contaminants by using Dahlgren Decon for a variety of immediate, tactical, operational, and cold weather decontamination needs for a two man team.

Features:

- (1) Dahlgren Decon (DD) – 22oz
- (1) 1,000ml Mixing Beaker
- (1) Stirring Rod
- (1) S-Cut QE
- (4) FiberTect Polyester Wipes (6" X 12")
- (1) Tactical Sprayer

ITEM #: 2DK-022-612/4

EDS

ENHANCED DECON SYSTEM

ENHANCED DECON SYSTEM (EDS)

The Enhanced Decon System, better known as the EDS, is the only rapid deployment go-bag with the power of Dahlgren Decon and FiberTect to effectively decontaminate up to 24 personnel at a time. Revolutionize lengthy SOPs into just a few easy steps.

Features:

- 120L Duffel Bag with Removable Backpack Straps
- 22 Oz Dahlgren Decon with Beaker and Stir Rod
- FiberTect Mitts
- S-CUT QEs
- Trauma Shears
- Headlamps
- Illuminated Green Chem Lights
- Illuminated Red Chem Lights
- Hot Line Marker
- Cold Line Marker
- Tool Pouches
- Collapsible Media Buckets
- 4' X 4' Shuffle Pits
- 24' X 24' FiberTect Pads
- Tactical Sprayers with MOLLE Bags

ITEM #: EDS6 - FLT-EDS-6-S (6person)

ITEM #: EDS24 - FLT-EDS-24-S (24person)

SI BALLISTIC HNBL

SI Ballistic HNBL is an eyewear platform for everyone. The low-profile design and easy lens exchange allows you to seamlessly transition from on-duty to off-duty. HNBL is optimized for performance meeting high impact standards for Mil Spec 32432A and ANSI Z87.1 as well as featuring Prizm™ Lens Technology. The frame features a lightweight, high-wrap design with thin stem technology and molded icons. The frame design is also suited for industrial prescription lenses. All sun lenses feature Oakley High Definition Optics (HDO®) and meet high mass and high velocity impact requirements.

Features:

- Durability and all-day comfort of lightweight, stress-resistant O Matter™ frame material
- Thin stem technology enables compatibility with over-ear hearing protection and communication systems
- Full compatibility with MICH, ACH, CVC, PASGT, Ops-Core, Team Wendy and Crye™ Helmets

ITEM #: CALL TO ORDER

SI BALLISTIC M FRAME® ALPHA

ALPHA is a three-part system composed of a frame, gasket and goggle. A single lens works across all platforms. The complete package, the ALPHA Operator Kit contains the entire Oakley ALPHA 'eco-system.' A design founded on modularity and scalability, the kit includes all of the following componentry:

Features:

- SI Ballistic M Frame® ALPHA™ Matte Black Frame
- Meets or exceeds high mass and high velocity impact requirements per ANSI Z87.1/
- SI Ballistic Halo™ Goggle – Matte Black
- SI HELO – ALPHA™ a lightweight and soft rubberized gasket to block wind and dust
- Goggle Velcro Split Strap
- Clear, Grey, Prizm TR22, and Prizm TR45 lens
- Anti-fog recharge kit
- M Frame Retention Lanyard
- SI Strong Box - Terrain Tan is included with OO9296-01

ITEM #: CALL TO ORDER

SI BALLISTIC SHOCK TUBE®

Forged with protection, shaped with industrial style, and built for speed, SI Shocktube brings ballistic capability to new levels. Fully compliant with the ballistic and optical standards of MIL PRF 32432, SI Shocktube is composed of an upper and lower jaw to maximize impact protection. Simple lens exchange with an included hex-key, the product allows the user to swap lenses seamlessly. An Unobtainium™ nosepiece and thin ear stems makes SI Shocktube adaptable for the active needs of Military, Law Enforcement, or recreational shooting.

Features:

- Plutonite® Lenses offer top UV Protection filtering 100% of all UVA, UVB, UVC and harmful blue light up to 400nm
- Patented High Definition Optics® (HDO®) provides superior optical clarity and razor-sharp vision at every angle
- Three-Point Fit holds lenses in precise optical alignment while eliminating pressure points common with frames that hook the ears
- O-Matter™ stress-resistant frame material is both lightweight and durable for all-day comfort and protection

ITEM #: CALL TO ORDER

SPEED ASSAULT 2

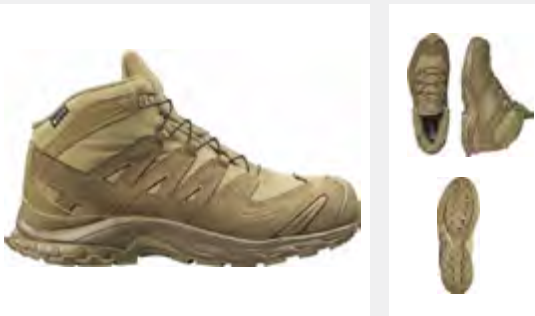

As light, protective and fiercely gripped as its predecessor, the SPEED ASSAULT 2 offers more everyday comfort and more technical features – not to mention unisex sizes. So, you'll be equipped for speed and agility in any warm weather and/or wet operation - from desert deployment to jungle training camps.

ASSAULT PLATE CARRIER

The Mayflower Assault Plate Carrier (APC) is designed to provide the wearer with a high degree of mobility while providing ample surface area for mounting mission essential pouches. The upper front of the APC contains an integral admin pouch with internal elastic loops to retain pens, pencils, chemlites or similar items. The front lower half of the APC has an integrated kangaroo pouch sized to hold up to three M4 sized magazines. The shoulder pads are made of a stretch woven material that allows enough elasticity to permit room for cable/hydration tube routing.

Features:

- Plate pockets are sized to accommodate Stand-Alone or ICW ESAPI or Swimmer cut plates
- S/M APC fits size Small, Medium and 10"x12" sized plates up to 1.2" thick and below
- L/XL APC fits Large and X-Large plates up to 1.2" thick and below
- Holds SAPI, Shooter, and Swimmer Plates
- Armor/Plates Sold Separately
- Three Cumberbund Options: Low-Profile Elastic (CBN1), Low-Profile Elastic With Dividers (CBN1D) & Standard MOLLE, Plate Pocket (CBN3)
- 100% Made in the USA

Available Colors: *Black, Coyote Brown, Multicam, Ranger Green*

ITEM #: CALL TO ORDER

SC3 - SCARAB™ LE FRONT - SCARAB™ LT BACK - SCARAB™ CUMMERBUND

The SC3 setup is comprised of the front panel of the SCARAB™ LE, the back panel of the SCARAB™ LT and the SCARAB™ LT/LE Cumberbund. The SC3 is made of 500 Denier Cordura with a mesh interior lining for increased breathability and features the Velocity System patented swivel shoulder straps (US Patent No. 9,894,962). The swivel shoulder straps were designed to alleviate common fit issues with traditional fixed angle shoulder straps.

Features:

- SC3 setup comprised of SCARAB™ LE front panel, SCARAB™ LT back panel and SCARAB™ LT/LE Cumberbund
- Three rows of loop MOLLE webbing and integrated flat kangaroo pouch sized to hold our Double HK417, Double 7.62, and Triple 5.56 Magazine Insert on front bottom
- Admin pouch with two external rows of MOLLE webbing on chest
- Back panel includes six rows of MOLLE webbing, loop on upper rear for ID and accepts Zip-On Back Panel
- SCARAB™ LT/LE Cumberbund - lightweight and breathable with MOLLE webbing on the exterior and interior
- Holds hard armor plates up to (1") one inch thick
- 100% Made in the USA

Available Colors: *Black, Coyote Brown, Multicam, Ranger Green*

ITEM #: CALL TO ORDER

MODULAR LPAAC/LPAC CONFIGURATIONS

The modular Low-Profile Armor Carrier (LPAC) / Low-Profile Assault Armor Carrier (LPAAC) option is designed to give the end user the ability to select the vest setup that best matches their personal preference or mission specific needs. The five different LPAC/LPAAC configurations were created by mixing the fronts and backs of the two carriers and providing cummerbund and front flap options.

Features:

- LP1 setup comprised of LPAAC front panel, LPAC back panel, and CBN3 Cumberbund
- Admin pouch with three external rows of MOLLE webbing on chest
- Back panel includes loop panel and a drag handle at the top and three rows of MOLLE webbing at the bottom
- CBN3 - Three internal elastic mag pouches, soft armor pocket, and 6"x6" plate pocket with internal adjustment

Available Colors: *Black, Coyote Brown, Multicam, Ranger Green*

ITEM #: CALL TO ORDER

LOW VIS ASSAULT CARRIER

The Low Vis Assault Carrier (LVAC) is a Low-Visibility molle carrier that holds the Velocity Systems Ultra Low-Visibility (ULV) Plate Kit and/or the ULV Soft Armor Inserts. The carrier is made from 500 Denier Cordura and has integrated patent pending SwiftClip® attachment system buckles on the chest to instantly don/doff chest rigs and additional equipment.

Features:

- The Low Vis Assault Carrier (LVC) will only hold Velocity Systems Ultra Low-Visibility (ULV) Plates and/or the ULV Soft Armor Inserts. The LVC will not hold SAPI or shooter/swimmer cut plates.
- 500 Denier Cordura outer carrier
- SwiftClip® attachment system to don/doff placards and chest rigs
- Integrated Admin Pouch on upper chest with loop face
- Kangaroo pouch for magazine inserts
- Elastic loops on interior to route comm wires
- Elastic pouches on the cummerbund for magazines or radios
- Armor/Plates Sold Separately
- Two Cumberbund Options: Low-Profile Elastic (CBN1) & Molle, Plate Pocket (CBN6)
- 100% Made in the USA

Available Colors: *Black, Coyote Brown, Multicam, Ranger Green*

- Gamma Cut Single Curve Torso Plates
- Ceramic/composite design
- Light AP protection including 7.62 x 39 API
- Multi shot rated on selected threats
- Polyurea coated 1000 Denier CORDURA® fabric finish
- Made in the U.S.A.

Special threat testing conducted in accordance with NIJ Standard-0101.06 (modified)

ITEM #: L210

C. LEVEL IV STAND ALONE SINGLE-CURVE SHOOTER CUT TORSO PLATES

- Gamma Cut Single Curve Torso Plates
- NIJ Certified
- Ballistic Areal Density: 10.3 lbs/ft²
- Ceramic/composite design
- Polyurea coated 1000 Denier CORDURA® fabric finish
- Made in the U.S.A.

Tested and verified to meet or exceed ballistic resistance as specified under NIJ Standard-0101.06 plus Special Rifle Threats validated.

ITEM #: 4400

HESCO 600 SERIES

The Hesco 600 Series of ballistic inserts are designed for comfort and ease of mobility. Lightweight and high performance, the plates are ideal for tactical teams and speed operations.

- Advanced SPECTRA® materials
- Highly durable CORDURA® nylon wrap
- Waterproof polyurea coating
- Multi-curve torso plate

Level III Stand Alone Multi-Curve Full Cut Torso Plates

- Lightweight ceramic/SPECTRA® design
- 8.00 X 10.00
- NIJ 0101.06 Certified

ITEM #: 4600

TORC (TACTICAL OPERATIONS RESPONSE CARRIER)

The Tactical Operations Response Carrier (TORC) is a multipurpose plate carrier system designed to meet the demands of today's Law Enforcement Operations & Tactical Teams. Its advanced design, ergonomic fit and low-profile architecture, all contribute to a true modular tactical body armor system. Both task force and tactical teams will benefit from this vest's scalability. Designed with utility in mind, the TORC offers plate carrier simplicity with options for ballistic protection add-ons.

Features:

- Standard or quick release platform
- Hydration/communication tunnel on shoulder straps
- Removable D-ring attachments
- Ballistic Dynamic Cummerbund with pockets
- Dynamic Cummerbund grip tabs
- Spacer mesh lining
- Admin/document pouch
- Front kangaroo pouch
- Non-skid shoulder weapon mount
- ID placard attachment points
- Reinforced drag strap
- Bottom loading front and rear rifle plate pockets, with expandable 4-way stretch

ITEM #: TORC

DHS TOGC

The (Quad Release) quick release system is functional on either side of the vest. The components of the release system are hidden to provide a clean look. The user can simply connect the four buckles for continued wear. The vest accepts accessory components including yoke, collar, throat protector, shaped deltoid protectors, lower back, and groin protector. The body side is a durable but lightweight nylon pack cloth with a durable water repellent surface.

Features:

- Quick release system with 4 buckle attachment points for simplistic reconnection and wear
- Release system may be positioned on either the right or left shoulder
- Carrier will hold either concealable shape ballistic panel; male/female or SPEAR \ BALCS panels
- Carrier designed to hold 10"x12" or 8"x10" hard armor plates
- Cummerbund secures utilizing a pull forward motion
- 3 rows of MOLLE located on external and body side of cummerbund for positioning of pouches or side plate pockets
- Hidden drag handle located on rear of carrier

ITEM #: KDH

LIGHTHAWK XT 3.0

The Lighthawk XT 3.0 has taken its product family to the next level of superior design. Built on the widely accepted SPEAR BALCS ballistic cut, the XT 3.0 provides ample coverage while maintaining a more aggressive architecture. Available in both Laser Cut and MOLLE configurations.

Features:

- Standard or quick release platform
- SPEAR BALCS ballistic cut
- Durable 500D nylon outer shell
- Top loading external plate pockets accept 8"x10" (XS-S) and 10"x12" (M-4XL) plates
- Front and back 3D foam technology
- Upgraded Advanced Shoulder Pad (UASP) system featuring 3D foam technology
- Shoulder routing system
- Mic tabs
- ID placard attachment points front and back
- Front and back communication wire ports
- Fully adjustable shoulders

ITEM #: TORC

AGILE CANINE VEST (ACV)

Designed over the past year based on feedback and testing by multiple agencies, the Agile Canine Vest or ACV is the most advanced K-9 carrier soft armor solution on the market. With groundbreaking features such as the hidden dynamic cummerbund, shoulder fit adjustments and covered zipper closure, the ACV is a streamlined package allowing the K-9 to be free in movement with minimal snag points; while offering the best armor options in ballistic and stab protection. Now available with the durable Boa® Fit System, which allows for instant micro-adjustments for a precise and custom fit. Patents pending.

Features:

- Inline crowd control handle
- D-Ring attachment points for short or long leads
- 3-Dimensional spacer mesh lining
- Front and side ID badge attachment points
- GPS tracking pocket
- Hidden Dynamic Cummerbund
- Shoulder fit adjustment
- Belly and chest coverage
- Heavy duty zipper closure on top of vest
- Utilizes alpha sizing system

ITEM #: TORC

VIZZ TACTICAL MPLS

The powerhouse Vizz Tactical builds upon its versatility by adding red, blue, green and IR specialty colors, all available in the same headlamp. Set and change the order your specialty color LEDs appear in for a headlamp tailored specifically to your needs and preferences. Durable body construction and a waterproof IPX7 rating round the Vizz Tactical out for a top-of-the-line choice in tactical lighting equipped to endure your next mission.

POWER: 550 Lumens

LAMP: 1 Maxbright LED (dimnable) | 1 Red Ultrabright LED | 1 Blue Ultrabright LED
1 Green Ultrabright LED | 1 IR Ultrabright LED

ITEM #: 795626018699

CHARGE PRO

The Charge Pro was designed to mount to various helmet rail systems, but has become more versatile including a wide variety of mounts that allow you to use the light on all of your gear. The Charge Pro runs off of a single CR123 Lithium battery, keeping it lightweight, extending burn time and standing up to colder climates.

POWER: 55 Lumens

LAMP: 1 Maxbright LED (regulated), (dimnable) | 3 Ultrabright LEDs

All Princeton Tec MPLS Helmet Lights come with the following mounts:

- Standard Nylon Headstrap
- MOLLE/PALS
- Helmet Side Mount
- Picatinny
- ARCs
- Above the Rail
- EXFIL Rail

Available Colors: Black, Tan or Olive Drab

ITEM #: 795626018699

VIZZ II MPLS

The Intrinsically Safe Vizz II is feature-loaded with two distinct beam profiles easily accessed via a simple press or hold of the button.

One Maxbright LED creates a powerful 150 lumen spot beam for long-throw illumination, while 4 Ultrabright LEDs deliver a dimmable flood beam. As with all of Princeton Tec Professional Series headlamps, the rugged Vizz II is waterproof.

POWER: 200 Lumens

LAMP: 1 Maxbright LED | 4 White Ultrabright LEDs

Features:

- Intrinsically Safe
- ETL Rating: Zone 0, Class I Division 1 Intrinsically Safe; Classes I, II, III, Divisions 1 & 2, Groups A, B, C, D, E, F, G
- Temp Code: T4

Includes MPLS Headlamp mounts:

- NVG Adapter Plate
- Bracket mount for MOLLE and/or standard nylon headstrap
- Standard nylon headstrap

Available Colors: Black

ITEM #: 795626025345

EOS II MPLS

The Intrinsically Safe EOS II MPLS takes our durable and lightweight EOS headlamp and turns it into a modular option through the time-tested Princeton Tec MPLS kit.

The EOS II is designed and built to meet the most rigorous of demands both in application and environment, regardless of the hazard present. Waterproof, constructed of high grade materials, and self-contained, the EOS II offers long burn times utilizing regulated circuitry.

POWER: 170 Lumens

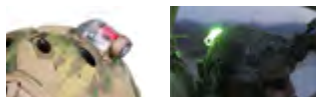

LAMP: 1 Maxbright LED

- Intrinsically Safe
- UL Rating: Class 1, Div 1: Groups A, B, C & D

- Includes MPLS Headlamp mounts:
 - NVG Adapter Plate
 - Bracket mount for MOLLE and/or standard nylon headstrap
 - Standard nylon headstrap

Available Colors: Black

ITEM #: 795626022757

V-LITE™ MULTI-MODE

The Manta Strobe™ is a helmet mounted multi-spectrum light emitter optimized for military operations. Our goal is clear: keep it simple for the end user, provide the highest level of performance through “select” electronic components combined with smart programming for highest output and extended battery life.

FEATURES:

- Dimensions: 2" x 2.95" x 1.3"
- Weight: 2.37 oz (with a battery);
- 0.4 oz (Webbing Adapter)
- Material: Silicone
- Battery: CR123A
- Waterproof: IPX8 (up to 150 ft)

Available LED Colors: Five color choices

ITEM #: CALL TO ORDER

V-LITE™ MULTI-MODE

The V-Lite™ is a versatile personal lighting/identification marker allowing the user to program the light to their preferred function. A simple and intuitive alternative to chemlights. One button to cycle through the programmed functions keeps it simple. The V-Lite™ Multi-Mode is 1 single color (9 color choices) with multiple programmed functions at the click of one button.

FEATURES:

- Flexible silicone body
- Velcro backed sleeve with lanyard
- Onboard Micro LEDs indicates battery level and the function selected
- 120+ hours continuous runtime
- IPX8 - Waterproof up to 60 ft
- IFF, CID
- Weight: 0.8 oz | Length: 4.25 in
- 1" (Fits in one MOLLE/PALS webbing column)

PROGRAMMABLE FUNCTIONS:

- On / Off
- Blink / Off
- On / Blink / Off
- 1/4, 1/2, 3/4, Full Output

Available LED Colors: Nine color choices

HOLSTER EXTENDER™ - WITH GRT™ REINFORCED BELT ADAPTER

- The Holster Extender™ allows the holster to be easily attached or removed from different gear setups utilizing any GRT™ platform
- Lightweight design and smooth operation
- With a push of a button the Holster Extender™ gives the shooter three set drop positions to set their holster. (0", 1 1/2", and 3"). This distance can be critical for clearing the holster when wearing bulkier gear
- Compatible with most holster brands
- Includes: GRT™ Reinforced Belt adapter, spacers, and screw kit to set the standoff you need to optimize your preferred holster carry and draw

Available Colors: Black or Coyote Tan

ITEM #: CALL TO ORDER

AVIATOR

Dual-Output Multi-Spectrum LED Flashlight

A classic SureFire design, the dual-output Aviator flashlight features a primary white LED and secondary colored LED in one sealed head, both focused into a useful beam with ample reach and surround light by our proprietary Total Internal Reflection (TIR) lens. Pull and twist Aviator's self-locking selector ring to set it to white or colored light, no filter required; a system-disable setting prevents accidental activation. Show your discriminating attitude at any altitude.

Available LED Colors: Amber, Blue, Red, Yellow-Green

ITEM #: AVIATOR-AM, AVIATOR-BL, AVIATOR-RD, AVIATOR-YG

X300V WEAPONLIGHT

Infrared / White LED Handgun WeaponLight with RailLock® Mounting System.

When the sun goes down, the X300V can expose your adversaries even while you remain virtually undetectable. With high-output white-light and infrared LEDs in one sealed unit, its recoil-proof LED generates a versatile 350-lumen tactical beam with abundant reach to temporarily overwhelm the dark-adapted vision of an aggressor and ample surround light to accommodate peripheral vision.

LED Colors: Infrared / White LED

ITEM #: X300V

MINI SCOUT LIGHT PRO

3-Volt Scout Light® Pro w/ Z68 Tailcap.

The Mini Scout Light Pro is mighty in stature yet minimal in structure. It feeds off a single 123A lithium battery, but its virtually indestructible LED devours the darkness with 500 lumens of light focused by a TIR lens into a high-intensity hybrid beam. It's ideal for close- to longer-range operations. SureFire's new Low-Profile Mount (LPM) delivers unprecedented versatility, allowing the user to optimize the light's position relative to the rail.

Available Colors: Black or Tan

ITEM #: M340C-BK-PRO, M340C-TN-PRO

X400® ULTRA – GREEN LASER

- Special high-performance LED produces 1000 lumens
- Custom TIR lens creates smooth, far-reaching light with a larger center spot beam
- < 5mW / 515nm Green laser sight is highly visible to the human eye and rarely needs rezeroing
- Integral ambidextrous momentary- and constant-on switching
- Attaches securely to both Universal and Picatinny accessory rails
- Weatherproof O-ring and gasket sealing
- High-strength aerospace aluminum body, Mil-Spec hard anodized for extreme durability
- Accepts optional pressure-activated DG and XT remote switches for precision control without altering grip on weapon

ITEM #: X400U-A-GN

XSC WEAPONLIGHT

Micro-Compact LED Handgun WeaponLight

The mean streets are no place to be making excuses about your protective equipment. The SureFire XSC is a no-compromise WeaponLight that's ready to help you defeat the darkness. If you carry one of the popular higher-capacity micro-compacts from SIG SAUER or Springfield Armory or the GLOCK Slimline Series, we've engineered the SureFire XSC specifically for you. If you carry a Universal-railed sub-compact, such as the Smith & Wesson M&P, Springfield Armory XD, H&K VP9SK Walther PPQ, the XSC-B is the right choice. Extremely compact and virtually indestructible, every XSC delivers intense white light, shaped by a hybrid parabolic reflector with plenty of reach and spill for positive target identification in the darkest confines, so you can read and react to any crisis with confidence.

SKITTLES BAG (DUMP POUCH)

- Everyone knows you just stuff gloves and a bottle of water in a dump pouch so no reason to go crazy with all sorts of whiz bang options on one! And Skittles!
- Made from Laser cut Brookwood Squadron Laminate and Glorious one-wrap Velcro.
- Attachment is via one-wrap velcro to secure to belts. MOLLE/PALS attachment need not apply.
- Rollsup and secures with a one-wrap Velcro strap but rolling dump pouches is dumb so just ignore this feature!

ITEM #: Dump.Pouch

ENHANCED SHOOTER'S BELT 1.75"

- Our Enhanced Shooter's Belt is a Inner/Outer Belt combo that is different from all other's. Featuring a non adjustable 1.75" COBRA® Buckle, the Shooter's Belt is a two piece belt design utilizing 1.75" Inner & Outer belts. While the buckle is non adjustable, our belts are unique in that each side of the belt adjusts. It has an adjustment range of 5.5". Made for hard use to last a lifetime.
- *Includes both Inner & Outer Belts.
- *The Enhanced shooters belts is made from Brookwood's Squadron® Laminate cordura with 12Layer Tegriss® plastic liner and one-wrap® velcro that are 100% laser cut for a strong and accurate belt. Depending on color the Enhanced belt has a massive weight savings over the original, Multicam alone is 26% lighter.

ITEM #: enhancedbelt175

THROWABLE TACTICAL CAMERA
 REVOLUTIONARY REAL-TIME 360° VIDEO TECHNOLOGY

This allows multiple users to look in multiple directions on their devices at the same time — and it records the video in all directions.

See the whole picture, every time. Traditional cameras force you to see the world with a limited field of view. Our cameras see in all directions at the same time. Nothing gets missed.

One low-cost tool to replace half of your existing kit and elevate the standards of team safety.

- Trusted by the most elite tactical teams in special operations and law enforcement.
- Scan attics, crawl spaces, and other hard-to-reach spaces.
- Clear stairwells with pole camera and tether attachment.
- Avoid the fatal funnel by throwing it into a room or deploying it on a rope.

ITEM #: CALL TO ORDER

Gain the unfair advantage. Keep your team safe.

WIFI/4G & CLOUD STREAMING CAPABILITIES

LIGHTWEIGHT & RUGGEDIZED (1.51LBS)

STABILIZED OMNIDIRECTIONAL VIDEO

TRANSMITTED INSTANTLY TO ANDROID/IOS DEVICES

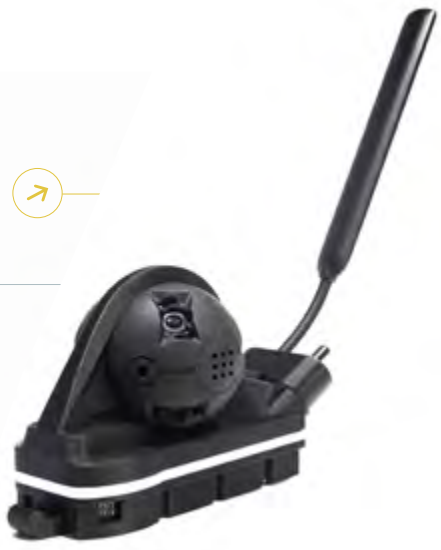

TWO-WAY AUDIO & PRE-RECORDED COMMANDS

ALL THE SAME GREAT FEATURES, BUT WITH INCREASED RANGE.

STABILIZED FOR DOG'S MOVEMENTS

ULTRA LIGHTWEIGHT & RUGGEDIZED

LAND SHARK
 DEDICATED K-9 CAMERA

Keep your K-9 partner safe with instant 360-degree stabilized video and a lightweight custom fit.

Like the Explorer cameras with the custom K-9 mount, the Land Shark system provides the only stabilized omnidirectional camera system in the world for K-9s, for the safest situational awareness for multiple team viewers and the K-9 handler. However it is lower profile and half the weight of the camera + mount system and has a wifi antenna that is better optimized for dog-mounting (giving the system better range).

It can still be used as a 360-degree polecam, but cannot be thrown. Custom 3-D printed in high-strength composites like carbon fiber, so fits ANY vest, ANY dog. Also available with 4G/LTE for unlimited range.

ITEM #: CALL TO ORDER

WMX1 shown here with Elzetta Integrated light/handle option

VENGEANCE IIIA WMX1

The WMX1 is an original Classic Cut VENGEANCE™ Series hard armor shield platform. WMX1 incorporates a tapered lower for deployment in tight or narrow spaces. The shield comes standard with our patented VENGEANCE™ viewport which enhances operator field of view at extreme close quarters. VENGEANCE series shields are deployed by over 2000 United States Marshals as well as hundreds of federal, state, and local law enforcement agencies.

Standard Features:

- Patented VENGEANCE™ Viewport
- Rigid Carbon Fiber Handle
- Large Single Curvature Ballistic Torso Protection
- Hybrid Composite COREBOND® Structural Ballistics

Optional Accessories:

- Custom COREBOND® Large Format ID Lettering
- Elzetta TriDextrous or Straight Bar Handle Integrated 1000 Lumen LED
- Fox Fury Straight Bar Handle Integrated 1200 Lumen LED and Remote Pressure Switch
- FoxFury Auxillary B30 600 Lumen LED Remote Pressure Switch
- Viewport Delete
- Shield Hook with MOLLE Attachment
- Shield Hook Sling Attachment
- Carry Bag

Available Sizes: 18"x30", 20"x34", 20"x 36", 24"x42", or 24"x48"

ITEM #: CALL TO ORDER

VENGEANCE IIIA WMX6

The WMX6 is the next generation in our VENGEANCE™ Series hard armor shields. The patent-pending design reduces weight and increases speed of deployment resulting in highspeed protective GUNFIGHTER™ shields that allow rapid transition between weapon systems (less lethal, handgun and rifle). The Triple-V upper was designed by shield operators to aid maneuverability in close-quarter combat. While compact, the design affords ample ballistic torso and cranial coverage. The WMX6 GUNFIGHTER™ features our patented VENGEANCE™ viewport which enhances operator field of view at extreme close quarters and is deployed by over 2000 United States Marshals as well as hundreds of state and local law enforcement officers.

Standard Features:

- Patented VENGEANCE™ Viewport
- Patent Pending Triple-V Weapons Platform
- Rigid Carbon Fiber Handle

- Large Single Curvature Ballistic Torso Protection
- Hybrid Composite COREBOND® Structural Ballistics

Optional Accessories:

- Custom COREBOND® LARGE FORMAT ID Lettering
- Integrated Handle/Lighting from Elzetta and Fox Fury
- Viewport Delete

Available Sizes: 20"x 34", or 20"x36"

ITEM #: CALL TO ORDER

VENGEANCE III+ WMX3RFT

The VENGEANCE™ series hard armor ballistic shield is an ambidextrous weapon mount design in threat level III+ rifle protection. Shown in our WMX3RFT tapered platform, providing optimized coverage area, speed to sight acquisition, and superior balance.

Standard Features:

- Patented VENGEANCE™ Viewport
- Flat Panel Ambidextrous Weapon Mount
- Straight Bar Handle
- Custom Molded Foam Armpad
- Heavy Duty Forearm Strap

Optional Accessories:

- Custom ID Placard
- Viewport Delete
- 600 Lumen Auxiliary Lighting
- Shield Hook with MOLLE Attachment
- Shield Hook with Shoulder Sling
- Carry Bag

Available Sizes: 18"x30", or 20"x34"

ITEM #: CALL TO ORDER

VENGEANCE III++ M855-GT

The VENGEANCE™ M855-GT series hard armor ballistic shield is an ambidextrous weapon mount design in threat level III++ rifle protection. Featuring advanced 100% composite construction, the VENGEANCE™ M855-GT eliminates fragile ceramic or heavy alloy components typically required to defeat the popular 5.56x45mm NATO SS109/M855 Greentip.

Standard Features:

- Patented VENGEANCE™ Viewport
- Flat Panel Ambidextrous Weapon Mount
- Straight Bar Handle
- Custom Molded Foam Armpad
- Heavy Duty Forearm Strap

Optional Accessories:

- Custom COREBOND® LARGE FORMAT ID Lettering
- Viewport Delete
- 600 Lumen Auxiliary Lighting
- Shield Hook with MOLLE Attachment
- Shield Hook with Shoulder Sling

Available Sizes: 18"x30", or 20"x34"

ITEM #: CALL TO ORDER

RAMPAK PRO

The Rampak Pro is the latest addition to the Rapid Assault Tools line of mechanical breaching kits. The Rampak Pro is a heavy breaching kit that comes complete with all of the tools needed for even the toughest breaches. This high quality kit includes a lightweight composite framed backpack (includes rain fly) that is designed to be worn with a plate carrier. These tools give professional entry teams the equipment they need to breach inward and outward opening wooden and steel doors.

Tools Included:

- PB30 - 30" Halligan Bar - 9.4 LBS
- PB24 - 4" Halligan Bar - 7.8 LBS
- BR23 - 23LB Composite Ram - 23.4 LBS
- SH15-3 - 3LB Sledge Hammer - 3.8 LBS
- BC24 - 24" Bolt Cutters - 5.4 LBS

ITEM #: RMP-PRO

ELECTRO-HYDRAULIC BREACHING KIT GEN4

The Rapid Assault Tools' Electro-Hydraulic Breaching Kit has been completely redesigned from the ground up with a focus on speed, stealth, and durability. This kit features a ruggedized, purpose-built hydraulic pump powered by DeWalt 60V FLEXVOLT Batteries. The unit is surrounded by a noise canceling enclosure which makes the pump operation barely audible, while also improving durability. The pump is three times faster and three times more powerful than the previous model. The entire package is available in a custom made FirstSpear Backpack that is designed to be worn with Ballistics. This coupled with our wide range of quick connect hydraulic breaching heads, gives operators the tools they need to gain access to even the most fortified targets.

ITEM #: HRP-BAT-GEN4

MECHANICAL BREACHING KIT

This mechanical breaching kit is a combination of three popular entry tools including the following with a heavy duty black Cordura carry bag with an adjustable shoulder strap and convenient carry handles.

Tools Included:

- Pry Bar
- Sledge Hammer
- Bolt Cutter

ITEM #: RK

ACTIVE SHOOTER ENTRY KIT

Custom designed, heavy duty backpack allows for transport and quick removal of three 20" long forced entry tools and a level 3A folding ballistic shield.

Standard entry kit includes:

- 20" RatBar
- 20" RatCutter
- 20" RatSledge

ITEM #: RP20-SHIELD

COLLAPSIBLE BREACHING TOOLS KIT

Mobility and operational excellence! This collapsible breaching tools kit been in use throughout the world by law enforcement and military personnel for over 10 years. The tools have been engineered for real world scenarios and are manufactured in the USA.

Kit includes:

- Collapsible Pry Bar
- Collapsible Sledge Hammer
- Collapsible Bolt Cutter
- When closed, each tool is only 19 inches long

ITEM #: RPX

MOHOC®

MOHOC® & MOHOC IR®

THE WORLD'S FIRST MILITARY OPTIMIZED HELMET CAMERAS

The tactically designed MOHOC® Camera revolutionizes form-factor, ruggedization, and user interface. The patented helmet-contoured base and low profile housing eliminate snag hazards.

Waterproof to 10m/30ft and drop-proof to 2m/6ft, MOHOC® is military-grade tough and IP68 rated. Its single button tactile control with vibration feedback enables intuitive operation in any conditions.

Both MOHOC® Cameras capture razor-sharp 1080p HD video and 12MP photos in visible light, low light, and white light. The new MOHOC® IR model also records in total darkness when used with infrared illumination (black & white images).

Stream live video by Wi-Fi, and relay to command over compatible tactical radios and cellular platforms.

ITEM #: MHDBK - MOHOC®

ITEM #: MHDBK-IR - MOHOC IR®

MOHOC® ACCESSORIES

MULTI-MOUNT

Developed specifically for use with the MOHOC® and MOHOC® IR Cameras, the Multi-Mount is designed to extend the functionality of your camera beyond the helmet. This single accessory allows MOHOC® cameras to securely mount on flat surfaces, tripods, weapon rails, and the universe of action camera mounts.

Just like the MOHOC® cameras it supports, the Multi-Mount is purpose-built tactical equipment with innovative form-factor, military-grade ruggedization, and intuitive user interface.

Instantly secure your MOHOC® Camera to the top of the Multi-Mount with industrial-grade Velcro®. Then use the anchor points on the bottom to attach the Multi-Mount wherever your operation demands.

1. Flat base with VELCRO® hook to attach to flat surfaces
2. 1/4" 20 nut to connect to tripod or Action Camera Mount
3. Picatinny Mount & KeyMod™ attachment holes

ITEM #: MH-MM

OPTIONAL PICATINNY MOUNT

The Multi-Mount + Picatinny Kit attaches securely to Picatinny rails on a wide variety of weapons systems: Includes Multi-Mount, Action Camera Mount, and Picatinny Mount

ITEM #: MH-WMT - Multi-Mount + Picatinny Kit

SHOULDER MOUNT

When your operations don't require a helmet, the Shoulder Mount provides an instantaneous body-worn alternative. Built with tactical nylon and secured by industrial-grade Velcro®, it's compatible with vests, chest rigs, backpacks, and other shoulder straps.

Once positioned, simply turn the rotating lens on the MOHOC® to ensure a level shot.

Available Colors:
Tan or Black

ITEM #: MH-SMT - Tan
ITEM #: MH-SMBK - Black

NOMAD® NOW SCENE LIGHT

Compact and rugged scene light with instant activation. Remote activation of single or multiple units.

POWER: 550 - 3,300

LAMP: White LED

- Max Output: 3,300 Lumens
- Battery Life: Up to 24 Hours
- Battery Type: Rechargeable Lithium-Ion
- Collapsible easy carry handle
- Mounts to magnet (included) and tripod
- Remote activation (included)
- Rechargeable Li-Ion Battery System
- 8.7 in (221 mm) tall and 4.5 lbs (2 kg)

ITEM #: 200-400-100 Multi-Activation

ITEM #: 200-400-102 Single Activation

NOMAD® 360 - 8,800 LUMENS

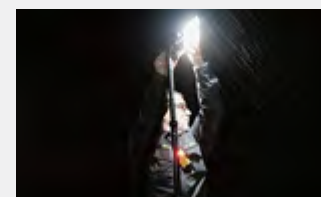

Best self-contained 360 scene light.

POWER: 990 - 8,800 Lumens

LAMP: White LED

- Max Output: 8,800 Lumens
- Battery Life: Up to 24 Hours
- Battery Type: Rechargeable Lithium-Ion or External Power 12VDC
- Spotlight, area light, and 360° scene light all in one
- Rechargeable Li-Ion Battery System
- Fully deploys to 8.5 ft (2.6 m)
- Weight: 24.4 lbs (11.1 kg)
- Color Bands included

ITEM #: 200-900

NOMAD® PRIME SCENE LIGHT - 5,600 LUMENS

Best spotlight with built-in tripod legs.

POWER: 990 - 8,800 Lumens

LAMP: White LED

- Max Output: 5,600 Lumens
- Battery Life: Up to 24 Hours
- Rechargeable Lithium-Ion or External Power 12VDC
- Spotlight and area light all in one
- Rechargeable Li-Ion Battery System
- Fully deploys to 8 ft (2.4 m)
- Weight: 18.4 lbs (8.3 kg)
- Red Diffuser Lens included

ITEM #: 200-800

PATRIOT3 ELEVATED TACTICS

LIBERATOR
ELEVATED TACTICS SYSTEM

- Single Ramp System
- Wider Ramp Area
- Light/Medium Weight Vehicles

The Liberator is a single-ramp Elevated Tactics System designed to fit a wide variety of medium weight vehicles. Ideal for SWAT and anti-terror forces, the Liberator system is simple to operate and can be rapidly deployed to reach its maximum height in less than 10 seconds.

The Liberator provides advanced assault and rescue capabilities to the host vehicle, without hindering any of the vehicle's features including access to the vehicle's roof hatch/turret. The Liberator comes standard with Side Deployment Rails (SDR) and the Multi-Angle Extension Ramp (MER).

1. Single Hydraulic Ramp
2. Multi-Angle Extension Ramp
3. Side Deployment Rails
4. Safety Railing System

GUARDIAN FULL FACE MASK

The Guardian line of Full-Face Masks (FFMs) is OTS' most recent innovation. Designed to meet the demanding needs of today's Commercial/Professional Diver, it leverages the best features found on other FFMs with unique features designed by OTS. The Guardian FFM comes in the following color combinations (skirt/hardware): black/black, black/blue, black/red, black/pink, blue/black, and yellow/black.

Features of the Guardian FFM include:

- Removable 2nd stage for easy cleaning and storage (can't be used w/o mask)
- Made of a one-piece, non-rigid silicone skirt combined with injection-molded, high-impact, glass-filled ABS plastic frame and regulator housing
- A double face seal and slightly smaller oral nasal cavity to fit most faces
- Equalization occurs through a nose block.
- Air flow is directed up over the visor to eliminate fogging and through one-way valves in the oral nasal pocket to reduce CO2 retention.
- 2nd stage comes off the right shoulder and uses a standard LP hose
- Includes a communications port for easy installation of a Buddy Phone® or ear/microphone assembly to connect an OTS Diver Communications Unit such as the PowerCom 3000D

ITEM #: 920001-001

MILCOM 6000D, 2 CHANNEL

A wireless unit only, the new MilCom 6000D adds scrambled communications! It is a new 70-watt, two-channel unit with an all new voice menu system and comes standard with rechargeable lithium-ion battery for extended run time and charger.

The MILCOM 6000D Wireless Diver Communication Unit takes wireless communication performance to the next level for all your professional diving needs. Its specifically designed rechargeable Lithium-ion battery boasts more power for greater range, up to 14 hour run time and significantly improved overall battery lifespan, ensuring that the MILCOM 6000D will keep you connected when you need it. Looking for added communication security? Look no further. With the MILCOM 6000D's all-new Scrambler Mode, wireless communications can now be discreetly and more securely transmitted for the first time in wireless communication history. Tack on additional features such as Voice Menu to change settings on the fly, a new "Extra Loud" Voice Menu option, improved mounting and strain reliefs, and more replaceable components for serviceability, the MILCOM 6000D is truly the next generation of Wireless Diver Communications.

EVERDRY 4 DRYSUIT

This premium-plus compressed neoprene drysuit still offers the streamlined fit, comfort and flexibility of a wetsuit with the thermal properties and water-tightness of a drysuit. This new version comes with upgraded shoulder and knee panels, a new plush interior, new smoother wrist seals, blue suspenders, and much more. The dense 4mm neoprene resists compression at depth so the drysuit can be worn with a thin undergarment or no undergarment at all.

Features:

- 4mm high-density neoprene weighs 50% less and is significantly softer than traditional drysuit neoprene.
- Seams are triple-glued and double-thread blind-stitched on the outside; inside they are coated with liquid polymer to create a long-lasting waterproof seam.
- Gray plush interior is comfortable and enhances cold water protection.
- Smooth-skin fold-under neoprene neck seal and ultra-smooth wrist seals provide comfortable, watertight sealing surfaces.
- Heavy-duty rear shoulder-to-shoulder BDM metal drysuit zipper is covered by a neoprene overflap for added protection.
- Si-Tech balanced side-activated inlet and adjustable outlet valves allow for pinpoint buoyancy control, increasing stability and control at depth.

SCUBAPRO OPS CORE SAR HELMET

The SCUBAPRO SAR Helmet is made by Ops Core to meet all the demands of any SAR operation.

Features:

- **ODIN HELMET STRAP**
Allows you to attach any mask that is comfort strap compatible to the Ops Core ARC rail system and Team Wendy rails.
- **ORANGE HELMET**
M/L: 67.991.300 L/XL: 67.991.400
- **COMFORT STRAP**
It features two mask straps fitted with the OPS Core Goggle swivel clip and shoe rail adapters. It will fit all Ops Core helmets or any helmet fitted with ARC rails. It will fit any SCUBAPRO mask that has quick clips. The kit also includes a chinstrap extension for cold-water operations.

JET FIN

SCUBAPRO's JET FIN is famous. This distinctive fin design set the standard for power and durability when it was first introduced 50 years ago. Its durable rubber construction and beefy shape can still be seen on dive boats, research vessels and in the world's most remote dive locales. Tech divers, deep divers, military divers, commercial divers and dive instructors, as well as old-school recreational divers, still strap on a pair of JET FINs before hitting the water. There are many imitations, but there is only one JET FIN.

Features:

- Rubber construction is known for its durability, promising a lifetime of use.
- Proven vented design decreases drag on the up-stroke and enhances thrust on the down-stroke.
- Features a traditional adjustable rubber heel strap.
- Available in Black.

Sizes: M, L, XL, 2XL

MK 19 EVO BLACK TECH/ G260 CARBON BLACK TECH

An upgrade to our popular G260 technical diving system, the MK19 EVO BT/G260 Carbon BT regulator system delivers superior durability with a premium carbon fiber front cover and a corrosion resistant Black Tech DLC coating. It's designed to be the premium regulator system for cold water, silty diving conditions and technical diving.

Features:

- For cold water or contaminated diving conditions
- Air-balanced diaphragm delivers constant and effortless airflow unaffected by depth, tank pressure or breathing rate
- Substantially smaller and lighter weight than the original MK19
- Environmentally sealed system prevents water and pollutants from fouling the inner mechanism
- More compact double-spring dry chamber

ITEM #: CALL TO ORDER

SENTINEL™ SERIES WATER RESCUE DRY SUIT

This constant wear water rescue dry suit is waterproof, breathable, and ideal for flood, swift water, and ice rescue. Enhanced features are critical in protecting the rescuer in severe environments, and offered in 25 sizes to fit any first responder.

Features:

- Two-point attachment removable suspender system improves the fit, mobility, and comfort over traditional suspender systems
- Two expanding arm pockets with an internal lanyard attachment point, external pen/eye pro pockets, and Velcro® for attaching ID patches
- Flexible molded foam elbow and knee pads are reinforced with ballistic nylon
- GORE-TEX® fabric is waterproof and breathable
- Seat is reinforced with ballistic nylon, and the tailbone protector is adjustable.
- Ballistic nylon reinforced seat and adjustable tailbone protector.
- Two thigh cargo pockets secure essentials

Sizes: *Mobility Based Sizing*

ITEM #: MSD624 03

ICE COMMANDER RESCUE SUIT

This modular suit is completely waterproof with the flotation and insulation of a zip-in liner that allows users to maintain mental and physical capabilities during long periods immersed in icy water.

Features:

- Hood and face seal are water-tight
- SOLAS reflective tape and Velcro™ patch for light attachment increased visibility
- Fully waterproof urethane-coated nylon shell makes cleaning and repairs easier
- Detachable Airsoft™ foam inner liner provides float and thermal insulation
- Water-tight hood, gloves and non-slip rubber soled boots
- Integrated insulated gloves with textured palms provide abrasion resistance and superior grip
- Integrated self adjusting safety harness
- Liner can be unzipped and removed for cleaning and in-the-field repairs

Sizes: *Universal Adult*

ITEM #: IC9001 03

UNIVERSAL SWIFT WATER RESCUE VEST

The Universal Swift Water Rescue Vest is high buoyancy at 25 lbs, USCG approved Type V SAR PFD and meets rescue professionals' Personal Protective Equipment (PPE) needs.

Features:

- Approval: USCG - UL1123 - Marine Buoyant Devices 160.064 Type V with Type III Performance (approved for trained rescue personnel only; approved only when worn)
- Approval: NFPA 1952 compliant
- Provides 25 lbs buoyancy in the water
- Fluorescent yellow-green accents improve visibility
- Drag handle for rescue situations
- Hole in top of pocket with retention loop accommodates a radio antenna

Sizes: *Universal*

ITEM #: MRV150-02

Color: *Orange-Black & Black*

HIT™ INFLATABLE PFD FOR LAW ENFORCEMENT (AUTO HYDROSTATIC)

The award-winning MD3183LE Inflatable PFD with HIT™ (Hydrostatic Inflator Technology) is Mustang Survival's top-of-the-line inflatable PFD. Designed for law enforcement with exclusive technology that enhances safety and minimizes maintenance, this is our most popular inflatable PFD.

Features:

- Approval: USCG - UL1180 - Inflatable PFDs 160.076 - Type V (Commercial Use); Type II (Recreational Use)
- Compatible with Re-arm Kit C (Model # MA7214)
- Low maintenance Hydrostatic Inflator Technology HIT™ only inflates when submerged in water, minimizing accidental inflation
- Inflator is maintenance-free for 5 years from date of manufacture
- Provides 38 lb of buoyancy when inflated - twice the flotation of most foam PFDs
- Status indicator window: green means it's ready to go

Sizes: *Universal*

ITEM #: MD3183LE

HENDERSON® DIVEWEAR

MIL- SPEC SPECIAL OPS/SAR FULL BODY SKIN

The versatility of the SAR SPEC OPS Skin has made them extremely popular as a base layer for use alone in multiple applications. The SAR SPEC OPS SKIN is available in two materials. Both Materials make donning wetsuits faster as well as help prevent chaffing from wetsuit use. Each Skin features a full-length, tough, non-corrosive zipper. Both options are excellent when used as undergarments and can be used alone for shielding the skin from abrasion, UV rays and biological irritants.

Features:

- Foot stirrups for secure fit
- Overlock seams
- All black
- Front zip

Sizes: S-XXL.

ITEM #: US807UF

SAR SWIMMER FIRE FLEECE JUMPSUIT

This suit offers a rear zip entry configuration. This time proven entry design significantly accelerates the speed at which the user can be in the wetsuit and ready to deploy. Rear zip entry configuration is well suited for use in confined spaces and tight quarters like Helo cabins. The suit may be easily unzipped for comfort and quickly re-zipped prior to deployment.

Features:

- Back zip entry with heavy-duty zipper and fully sealed closure for minimum water entry double glued and double blind stitched seams
- Minimal seam design for maximum warmth and less opportunity for seam failure
- Fully adjustable collar provides a perfect fit and reduces water entry
- Duratex knees for comfort and long lasting performance
- Pill and abrasion-resistant nylon interior and exterior
- Retro reflective tape on shoulders
- Thermally bonded non-slip traction seat

Sizes: S-XXL.

ITEM #: US830MB

SAR SWIMMER FIRE FLEECE SHORTY

This suit offers a rear zip entry configuration. This time proven entry design significantly accelerates the speed at which the user can be in the wetsuit and ready to deploy. Rear zip entry configuration is well suited for use in confined spaces and tight quarters like Helo cabins. The suit may be easily unzipped for comfort and quickly re-zipped prior to deployment.

Features:

- HT Hyperstretch® Thermoprene® material
- Double glued and double blind stitched seams
- Henderson exclusive hood design, offers superior fit and comfort
- Minimal seam design for maximum warmth and less opportunity for seam failure
- Pill and abrasion-resistant nylon interior and exterior
- Retro reflective tape on shoulders
- Thermally bonded non-slip traction seat

Sizes: S-XXL.

ITEM #: US630MB

5MM KEVLAR DIVE GLOVE

Combining 4mm Kevlar reinforced fabric across the palm, fingertips and thumb, with 5mm stretch neoprene across the back of the hands. This produces a remarkably comfortable glove, perfected over several months with feedback from our team divers.

Features:

- Ultra hard-wearing, perfect for exploratory diving or situations where durability is important
- 5mm neoprene reinforced with Kevlar in the palm and over the tips of the fingers to provide warmth and protection
- Designed for key activities which commonly cause wear including clipping and unclipping bolt-snaps
- Thermoflex lining provides additional warmth
- Inner wrist print combined with double glued and blindstitched seams help to minimize water ingress

Sizes: XS, S, M, L, XL, 2XL

ITEM #: 0661708251837

MEN'S J2 LEGGINGS

Comfortable soft waistband and flat seams maximize next to skin comfort.

Features:

- Developed for J2 caving expedition
- Tested for 19 days, 24hrs a day
- Anti-microbial silver ion technology
- Lightweight and compact
- Fast wicking
- Extreme performance
- Perfect for extended dry suit diving
- 90% Polyester, 10% Elastane

Sizes: XS, S, M, L, XL, 2XL, 3XL

ITEM #: 0661708255491

TCS MEN'S ARCTIC TWO PIECE UNDERGARMENT

The professional's choice for thermal protection. High insulation and low bulk fabric, constructed with comfort and utility in mind. The minimalist design provides outstanding performance under dry suits or land-based outerwear.

Features:

- Consists of the Arctic Top and Arctic Leggings
- Keeps the body dry and warm
- Superior low bulk insulation for flexibility
- Performs even when wet
- Machine washable
- Comfortable fit with fleece inner
- Used by FBI dive teams and military divers world-wide

Men's Arctic Top

The Arctic top is designed with a long body portion to ensure adequate overlap between the top and trousers. Thumb loops prevent the sleeves from riding up during donning. Remember to remove them and tuck them back underneath the wrist seals. Tuck the top into the waistband of the trousers before donning dry suit to prevent any separation during the dive.

Men's Arctic Legging

The Arctic leggings feature secure foot loops to keep leggings in place when donning the dry suit. A high waistband ensures that separation of top and leggings is minimized. Tuck the top into the waistband before donning the dry suit. The lower legs are single layered to prevent too much bulk around the ankles making donning easier. Short and regular leg lengths are available.

Sizes: XS, S, M, L, XL, 2XL, 3XL

ITEM #: 0661708262871V

VIKING™ PROTECH II FEATURING THE EXCLUSIVE WETDRY SYSTEM

A flexible dry suit designed for maximum comfort in a wide range of applications, particularly suited for military use. Rear entry design. Vulcanised seams allow for peace of mind when diving under all situations. The VIKING™ PROTECH II is easy to clean and repair, which helps to minimize downtime. Additional layers of anti-slip textured rubber are applied to areas at risk of wear; shoulders, zipper and rear of trousers. The trouser rear reinforcement extends around the thigh and across to the front of the legs, and down over the boots.

Features:

- Internal stitched and taped seams
- External vulcanised seams
- HZ chemical approval
- BIO micro-organism approval
- Each suit comes supplied as standard with suspenders, carry bag, user manual, repair kit and zip care materials.

ITEM #: VIKING- PROTECH-2

VIKING™ HDS THE INDUSTRY STANDARD BEARER FOR VULCANISED RUBBER DRYSUITS.

The VIKING™ HDS sets the standard among vulcanised rubber drysuits. Made from NITECS, a material developed by Ansell Protective Solutions with a US patent applied. NITECS provides unsurpassed protection against chemical permeation along with extreme durability against wear and tear. The material offers a high protection index against aggressive chemicals including hydrocarbons.

NITECS reinforcing material with a textured non-slip surface is fitted to areas at risk of wear; shoulders, zipper and rear of trousers. The trouser rear reinforcement extends around the thighs down to the knees and down the front of the legs and over the boots.

Features:

- Internal stitched and taped seams
- External vulcanised seams
- NITECS material, which is an HNBR rubber compound, coated onto a 2-way stretch knitted polyester lining
- Internal stitched and taped seams
- HZ chemical approval
- BIO micro-organism approval
- VIKING™ Hazmat inlet valve with additional manual shut off function for emergency situations, positioned centrally on the chest

ITEM #: VIKING- HDS

VIKING™ HAZTECH DRY SUIT THE INDUSTRY STANDARD BEARER FOR VULCANISED RUBBER DRYSUITS.

The VIKING™ HD is considered to be the industry standard for commercial diving worldwide. The suit material is as it suggests, heavy duty, built to withstand the rigours of diving in a harsh working environment. Whether the job is cleaning a ships hull, carrying out welding and inspection, or clearing a fouled propeller, the VIKING™ HD is equal to these tasks and more.

Additional layers of anti-slip textured rubber are applied to areas at risk of wear. The shoulders and zipper are reinforced. The front of the legs from above the knee, down to the boots, and around the boots are also protected from abrasion and puncturing.

Features:

- Push protected inlet valve, positioned centrally on the chest
- Blend of natural and synthetic rubbers (NR/EPDM), on a 2-way stretch knitted polyester lining
- EN 14225-2:2017 Standard
- Internal stitched and taped seams
- HZ chemical approval
- BIO micro-organism approval
- VIKING™ X2 exhaust valve with 2 mushroom valves for added security, on the upper left arm

ITEM #: VIKING- HAZTECH

**AKONA®**

AKONA QUANTUM STRETCH WETSUITS (3 MM, 5 MM, 7MM)

- The Akona Quantum Stretch 5mm Nylon-2 Jumpsuit has textured shoulders for added strength and protection from BCD wear and helps keep the BCD more firmly in place when diving.
- The suits seams are all glued and blind stitched for warmth while diving and durability. Rear durable YKK #10 brass zipper with pull tab leash allow easy self-donning and doffing.
- The suits knees are reinforced with laminated knee pads to protect this high wear area. Suit is available in multiple sizes and is black in color.

ITEM #: AKMS639-4XL

AKONA NOMAD BOOT

- The AKONA Nomad tall boots come with protective toe and heel caps which provide added strength to the seams.
- Nylon webbing runs vertically up the back of the boot to provide more durability and strength when putting the boots on.
- Anti Slip-Sole to provide protection against slipping.

ITEM #: AKBT239/69

AKONA STANDARD VENTED HOOD

Presenting our double coverage vented top hood featuring a skin face seal for enhanced protection. Crafted with our signature 5/3mm Quantum Stretch material, this hood ensures effortless donning and doffing, prioritizing convenience without compromising on quality.

- Blind stitched
- Double coverage vented top
- Flexible and comfortable
- Perfect layering piece

ITEM #: AKH201

AKONA ARMORTEX GLOVE

- AKONA ArmorTex Glove are made with Quantum Stretch Neoprene (four-way stretch). They are glued and blind stitched for a durable, water resistant finish.
- Palm and finger-tips are properly covered with ArmorTex fabric for maximum protection from punctures and cuts while continuing to provide maximum flexibility and comfort.
- Skin In Cuff minimizes water transfer at glove/wetsuit seal.

ITEM #: AKNG136K/AKNG156K

BARE®

IN YOUR ELEMENT

A. 7MM REACTIVE FULL

Reactive, the first wetsuit in diving to use OMNIRED Infrared fabric, a responsive textile that continuously warms the diver using their own body heat.

Features:

- Velcro adjustment on collar features a booklet-style cover, to protect your suit from snags and pilling
- Seamless underarms for superior comfort and mobility
- Extra-long, 21-inch S-Lock2 back zipper with offset tooth design and PU coated zip tape, guards against water entry
- Skin-to-skin double internal sealing zipper flap
- Full length puller with silicon print for easy grip; grip tab at base of the zipper
- Extra-long, 11-inch heavy-duty ankle zippers for easy donning (7MM + 5MM only)
- Armor Flex 2.0 highly flexible, durable, abrasion resistant 3-D kneepads
- Anatomically correct pattern for three dimensional fit throughout
- Two year warranty

Available Colors: Black, Blue, and Red

Sizes: S, M, MT, ML, MLS, MLT, L, LS, LT, XL, XLS, XLT, 2XL, 2XLS, 3XL, 4XL

ITEM #: 002173

B. TRILAM TECH DRY DRYSUIT

The BARE Trilam Tech Dry front-zip drysuit is made with our exclusively engineered butyl trilaminate material, giving it the advantage of superior flexibility and lightweight characteristics.

Features:

- 2mm nylon/smoothskin warm collar with vented neck drain provides an improved seal with the BARE dry hood
- 360 degree swivel inflator valve and adjustable low-profile exhaust valve
- Telescoping torso with elastic crotch strap, rear double anchor and adjustable quick release front buckle
- Includes suspenders
- BARE embossed M-PADz knee protection with 2mm neoprene backing providing added padding for comfort
- Flexible double taped reinforcement at "critical wear" seam points for added durability
- Two-needle "felled seam" construction increases seam integrity, is low profile and less prone to abrasion and finished for a clean look
- Your choice of HD vulcanized 4mm compressed density neoprene BARE boot, or compression resistant Soft Boot (see accessories for BARE boot options)

Available Colors: Black or Red | *Choice of latex or a 3mm neoprene comfort-fit neck seal.*

Sizes: S, M, ML, L, XL, 2XL, 3XL, or custom

ITEM #: 011126

C. TRILAM SEARCH AND RESCUE TECH DRY DRYSUIT

Specially designed for Search and Rescue activities. It is lighter weight and more flexible than traditional trilaminates and features a brass main entry zipper, and includes a protective zipper cover. The suit also comes as standard with HD Dry Boots with a steel toe-cap and sole.

Features:

- Exclusively engineered, the material in the Trilam is lighter weight and offers enhanced flexibility over current butyl trilaminates, improving freedom of movement
- Brass main entry zipper including a protective zipper cover
- 2MM nylon/smoothskin warm collar with vented neck drain provides an improved seal with the BARE dry hood
- Telescoping torso with elastic crotch strap, rear double anchor and adjustable quick release front buckle
- Includes suspenders
- BARE M-PADz knee protection
- Reinforced "critical-wear" seam points
- Two-needle "felled seam," glued and heat taped
- Reflective and highly visible yellow / silver / yellow stripes on wrist and ankle area, and back
- Two Bellows Pockets with flap on left and right thigh as standard
- HD Dryboots with a steel toe-cap and sole

Sizes: XSSHORT, S, SSHORT, MSHORT, M, MTALL, LSHORT, L, XLSHORT, XL

ITEM #: 002175

OCEANIC

EVERY DAY | EVERY DIVE™

OCEANIC ALPHA 8 REGULATOR

If you believe that you shouldn't have to sacrifice performance for price, the Alpha 8 Sport is for you. The Alpha 8 Sport is the top-performing regulator in its class, and one of the most affordably priced regulators you can buy.

Features:

- Demand Valve
- Balanced System
- Integrated Purge Button
- Orthodontic Mouthpiece
- Nitrox Compatibility to 40%
- Weight (without hose) 6 ounces
- Dimensions (front profile) 2.9 inches
- Minimum Cracking Effort
- Factory Set Inhalation Effort 1.2–1.4 CIW*
- The best price-to-performance ratio in its class
- Designed to perform to the U.S. Navy's Class A standards at 198 feet
- Inexpensive to maintain
- Limited Lifetime Warranty
- Limited Lifetime Service Agreement
- 30-Day Satisfaction Guarantee

ITEM #: 40-3551-29

OCEANIC DELTA 5 REGULATOR

The Delta 5 is the next step in a long line of remarkably reliable, durable, and smoothly breathing regulators to carry that name. Like the deltas before it, the 5 comes standard with our patented Dynamic Adjustment Technology that, once set by the diver, provides consistent airflow at any depth. It also comes standard with a dive/pre-dive switch and a super comfortable orthodontic mouth piece. This latest edition, though, has an updated, all metal pneumatic valve providing super smooth breathing performance in any condition.

Features:

- Pneumatically balanced all-metal valve
- Dive/pre-dive switch & patented dynamic airflow adjustment control
- Mechanical Purge button for consistent air-flow pressure during purge
- Nitrox Compatibility - Standard to 40%
- Balanced diaphragm first stage eDX is environmentally sealed and cold-water ready
- Heat Exchanger for improved cold-water performance
- Ergonomic exhalation venting
- Dimensions (Front Profile) - 2.5 inch diameter (circular)
- Dual-material orthodontic mouthpiece with bite tabs
- Service Interval: two years, required
- Lifetime Warranty with Free Parts for Life
- 30 day satisfaction guarantee
- Miflex Braided Hose (supplied with complete models only)

ITEM #: 40-7590-07

PROPLUS 4.0

Bigger and better than ever, the ProPlus 4.0 features the latest Bluetooth 4.0 technology. Now divers can adjust and customize all their dive features on the go pre-and post-dive. ProPlus 4.0 boasts a new display area, wider font size, and 22% larger digits than its predecessor (ProPlus 3), making it clearer and easier to read than ever before. With Bluetooth compatibility, ProPlus 4.0 adds to Oceanic's commitment to growing the largest family of Bluetooth compatible computers available to divers.

ITEM #: 04-1081-07

BLIZZARD PRO

The Blizzard Pro is the standard for cold water divers during the last 30 years and it has been the “go to” regulator for many. Public Service Dive Teams around the country and in parts of the world use it because of its reliability at low water temperatures and for its ruggedness. The 9000 Series 1st Stage is a unique and patented design featuring Sherwood’s Air-Assisted Depth-Compensation (A2-DC) Technology. A2-DC responds to ambient pressure changes and uses internal pneumatic force to compensate the chamber. The results are an environmentally sealed and dry 1st Stage that is very responsive to external changing pressures. The Blizzard Pro 2nd Stage features Opposite Pivoting Point (OPP).

9000 1ST STAGE:

- Four LP Ports and Two HP Ports
- Environmentally Sealed and Dry. Minimal corrosion extends regulator performance
- Flow-By Piston
- A2-DC Balanced Regulator

BLIZZARD PRO 2ND STAGE:

- OPP Demand Lever reverses the pivot point to the opposite end of the valve body reducing freezing opportunities
- Stiffer exhaust valve minimizes water intake throughout the breathing cycle drastically reducing in-housing ice formation
- Injection molded thermoplastic LP seat; harder than silicone, which maintains its shape for longer periods of time
- CE Certified

**Free Parts for Life (Restrictions Apply)*

ITEM #: 617209416107

MAGNUM PRO

The new Sherwood Magnum Pro is a completely newly designed second stage for better breathing performance, stability, and durability. The Magnum Pro is now a pneumatically balanced 2nd stage regulator. It uses the same technology and design that has earned the Brut worldwide recognition for durability and reliability, but the Magnum Pro goes a step further with an added Venturi device to reduce breathing resistance at the higher flow rates when it is needed the most. A flow control switch allows the diver to switch the Venturi effect off while at the surface or in shallow water to stabilize the regulator for better manageability.

MAGNUM PRO FIRST STAGE:

- Tee-shaped design reduces regulator profile when mounted on tank, minimizing opportunity to make contact with the back of the head
- Balanced-piston delivers ample air volume at stable intermediate pressure to the second stage over a wide range of supply pressures
- Spring chamber is environmentally sealed to maintain cleanliness, reducing the effects of corrosion and contamination
- Dry-sealed first stage uses no liquids or gels that can leak or add to service costs
- Four LP ports and two HP ports for more options for ideal hose positioning

MAGNUM PRO SECOND STAGE:

- Pneumatically balanced 2nd stage - The pneumatically balanced regulator ensures you get the same amount of air delivery whether you are at 3,000 psi or 500 psi, improving the diving experience
- Venturi switch - The Venturi switch provides performance adjustments at the surface or at depth, providing a more stable regulator
- Single valve tube construction - The single construction creates a precise channel for the valve to operate
- Co-Molded mouthpiece - The large co-molded mouthpiece uses two different silicone compounds and colors to reduce jaw fatigue

ITEM #: 617209416084

SR2 OCTO

The same extraordinary breathing characteristics as the SR2 Regulator. The SR2 Octo is outfitted with distinctive front cover, highly visible yellow hose, and still maintains the adjustments that the SR2 has.

Features:

- Hi-Vis yellow hose 37"
- Nitrox ready up to 40% (out of the box)
- Free Parts for Life (Restrictions apply)

ITEM #: 753182522258

ATOMIC®

AQUATICS

T3 FIRST AND SECOND STAGE REGULATOR

- The T3 is Atomic Aquatics' signature regulator. The T3 is for divers who want the absolute finest regulator on the market, regardless of price. Amazing lightweight makes it the perfect choice for travel, as the T3 delivers unprecedented reliability and performance. In exotic locations, divers don't need to worry about finding a service location. 3-year/300 dive service non-contingent lifetime warranty and new, lighter component parts - the minimalist first-stage yoke design is optimized to use the least amount of material possible.
- All component parts in the second stage have been lightened to make the T3 the lightest regulator in the world and it fitted with our patented Atomic Aquatics all-titanium "comfort" swivel with Black PVD coating.

ITEM #: 03-0100-7P / 03-0100-6P

VENOM SUBFRAME MASKS & FRAMELESS MASKS

- Only Atomic Aquatics has UltraClear Schott Superwhite glass lenses with exceptional optical clarity. In addition, the single window hydrodynamic styling, and double layer dual-colored silicone skirt, provide extreme comfort, functionality and improved vision.
- The Atomic Venom Frameless Mask co-molded with two silicone materials in two levels of softness. Exclusive UltraSoft silicone in an accent color is incredibly comfortable. A more rigid silicone black skirt keeps the mask firmly positioned in even the most turbulent conditions. Popular Atomic UltraClear lens completes the package to make this the finest mask to ever see the light of day or the darkness of the fathoms.

ITEM #: 03-0100-7P /04-0160-OE

BUOYANCY COMPENSATOR - BC1

- The jacket style BC1 is for the diver who wants the absolute BEST available. The Atomic design team of seven industry professionals, with 152 years of collective diving equipment experience, reexamined every detail and designed every single component of the BC1 for durability, performance and ease-of-use.
- Custom 316 stainless steel d-rings with titanium PVD coating
- Diamond pattern quilted backpad and adjustable lumbar pad
- Non-skid tank pad with CNC-machined stainless steel hardware
- Sand-resistant pocket zippers
- Low friction 316 stainless steel "dry glide" exhaust pull dump in two locations
- Patent pending anti-floating pull knob
- Two 4.96 lbs. non-releasable trim weight pockets

ITEM #: 03-0100-7P /04-0160-OE

B2 FIRST AND SECOND STAGE REGULATOR

- Our most popular model with the perfect combination of comfort, performance and style. The B2 has a chrome plated brass first stage with a swiveling 5-port cap.
- The second stage houses lightweight titanium components and is also fitted with our patented Atomic Aquatics PVD coated brass comfort swivel hose.
- Environmental sealing is optional for this system.

ITEM #: 03-0100-7P /04-0160-OE

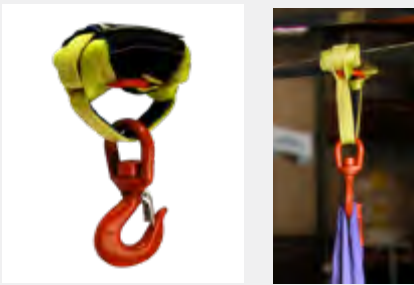

DYNAFLEX SLINGS WITH DYNEEMA HIGH PERFORMANCE CORE

DynaFlex, the newest addition to our family of roundslings. This high capacity, ultra lightweight roundsling is a safe and ergonomic alternative to conventional steel and synthetic slings. DynaFlex is manufactured with a load bearing core of Dyneema®, the world's strongest fiber, yet remains soft and flexible to allow for easy rigging.

- High Capacity - lifts 400K lbs.
- Ultra Light Weight - Dyneema® even floats on water - good in the marine industry.
- Low Elongation - Only 1% Stretch at Rated Capacity.
- Superior Resistance to UV Exposure - No UV exposure duration limits are prescribed.
- Excellent Chemical Resistance - This includes resistance to salt water.
- Resistance and Durability - Low friction properties of the material protect it from internal abrasion.
- Soft and Flexible - Easy for rigging crews to safely handle and connect quickly.
- Dyneema® SK78 fiber for improved resistance against creep elongation compared to other HMPE yarn

ITEM #:DEN125K

GRIPHOOK

Lift-All's new patent pending GripHook design converts your fork truck into an overhead lifting device in a matter of seconds. This is a must for contractors, manufacturing plants, power plants, distribution centers, rental houses, and any other facility using fork trucks. This economical solution is made from high quality synthetic materials saving you money, without compromising lift capacity. The self-gripping design allows the GripHook to tighten around the fork when a load is applied. The easy to attach GripHook does not require any tools to install.

ITEM #: GH4S-1

MANUAL & LEVER CHAIN HOISTS

Lift-All hoists are perfect for a low headroom lift. These economical, durable, and lightweight hoists are excellent options for a variety of lifting applications. The fully enclosed gears are protected from contamination. Powder-coated and plated finishes on exposed components protect the hoists from corrosion. All gears and shafts run on caged roller bearings for smooth operation and long life (excludes mini pullers). The self-adjusting Weston style mechanical load brake never requires adjustment. The top hook mounting aids in rigging and helps ensure straight line loading between hooks. Capacities range from 1/4-ton to 10-ton.

- Manual Hoist: 10', 20', and 30'
- Lever Hoist: 5', 10', and 20'
- Mini Hoists: 5' and 10'
- Meet ASME/ANSI B30 and NASA-STD-8719.9 standards

ITEM #:MCH100 / LCH060 / MLH005 / PTO05

RETRACTABLE RATCHET

Designed for ease of use, this 1" X 12-ft. Retractable Ratchet Tie Down Assembly can hold a variety of items securely. They are convenient to use and can be installed quickly as there is no need to fuss with extra webbing, tying-off the ends, or removing the webbing from the ratchet. The retractable ratchet opens and retracts much like a tape measure, pulling out to desired length and ratchet until tight. To store, simply release tie down assembly from the load and webbing will retract back into the ratchet housing.

- The steel S-hooks have a PE coating to protect your load from marring & scratches, and provides long-term corrosion resistance to the environment.

ITEM #: 60203

GENERAL PURPOSE INSULATED TOOL KIT

1000-VOLT RATED, 22 PIECE

- A comprehensive set of 22 insulated tools including assorted pliers (8), screwdrivers (9), pump pliers, wire stripper/cutter, cable cutter, lineman's skinning knife and a crimping/cutting tool. (See individual tool listings for more details)
- Two layers of insulation provide protection against electric shock
- The custom case includes 3 pallets with custom-fitted pockets for each tool, piano-hinged cover has both a combination lock and two key-locked latches for security, storage space behind the pallets to keep important papers and accessory items
- Replacement case available (Cat. No. 33537)
- Meets or exceeds IEC 60900: 2012, ASTM F1505-10 standards for insulated tools

ITEM #:33527

BATTERY-OPERATED CU/AL CLOSED-JAW CUTTER, 2 AH

- Cuts 1000* MCM copper and 1500 MCM aluminum cable
- Closed-jaw style provides higher cutting capacity
- Includes tool, two 2 Ah batteries, charger and bag
- Two work lights illuminate darker spaces
- Replacement insert blades available
- Safety lockout switch
- D ring for hanging
- Powered by DeWALT 20V lithium-ion batteries with 2 Ah life
- DeWALT is a registered trademark of the Black & Decker corporation

ITEM #: BAT20-G10

TRADESMAN PRO™ TOOL MASTER BACKPACK

- Backpack with 48 total pockets to easily keep everything organized
- Removable tool caddy with carrying handles and a D-ring for hanging
- Aircraft cable heavily reinforces the handle as well as a heavy-duty zipper with lockable pulls (lock not included)
- Made of durable water resistant 1680d ballistic weave material and a molded bottom to help protect from the elements
- Hang the bag from the heavy-duty metal hook for easy access into the bag
- Well-padded shoulder straps have a buckled chest strap along with lower straps that adjust for a perfect fit
- Tool caddy has a zipper pocket and closed pouches for small tools and parts as well as open pockets and straps ideal for long drivers
- Adjustable front pouch for quick tool retrieval, a mid-sized front zipper pocket fits tablets in protective covers, and a front zipper pocket for smaller items
- Molded front pocket helps protect items like phones and safety glasses
- Orange interior helps find tools easily and a large interior space for larger hand tools

ITEM #:55485

ELECTRICAL MAINTENANCE AND TEST KIT

- Measure AC current via the clamp, and AC/DC voltage, resistance and continuity via test leads
- Detects the most common wiring problems in standard and GFCI receptacles including open ground, reverse polarity, open hot, open neutral and hot/ground reversed
- Line splitter allows the measuring of current draw up to 15A without splitting the load's power cord
- CAT III 600V, Class 2, Double insulation safety rating
- AC Auto-Ranging 400 AMP digital clamp meter
- Backlit display for clear readings
- Includes a case, test leads and batteries

ITEM #:CL110KIT

NIGHTSTICK®

Life Depends on Light™

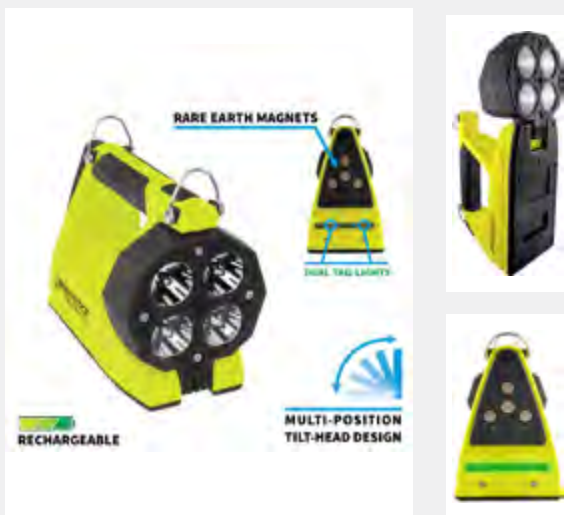

INTRINSICALLY SAFE RECHARGEABLE LED SCENE LIGHT KIT

The XPR-5592GCX Rechargeable LED Scene Light Kit is ideal for use when portability is important. Zone 0, cULus, ATEX, IECEx, and InMetro certified intrinsically safe for use in hazardous environments, the array of 5 floodlight LEDs perfectly emit an impressive 1,200 lumens on high for 6 hours, or 650 lumens on low for 12 hours when activated using the robust three-position toggle switch. This scene light has a housing that is constructed from lightweight glass-filled nylon polymer keeping it cool to the touch while being chemical, heat, and impact resistant.

Features:

- Intrinsically safe for hazardous environments
- Rechargeable integrated lithium-ion battery
- Multi-angle tilt and swivel fixture design
- IP-67 Dustproof / Waterproof
- 12 Hour Run Time
- Includes 6 foot tripod with camlock adjusters
- Powerful rare earth magnetic base for hands-free operation
- 1200 Lumens LED technology

ITEM #: XPR-5592GCX

INTRINSICALLY SAFE RECHARGEABLE LANTERN W/ MAGNETIC BASE

The INTEGRITAS™ 84 Intrinsically Safe Rechargeable Lantern generates a scene-filling 600 lumens for an ultra-long 13 hours from four separate LEDs housed in a 180-degree articulating head for maximum versatility. Holding down the switch enables a battery-saving 250-lumen low mode, extending runtime to 25 hours when work demands extreme use. Designed and engineered as both a hand-held lantern and portable area light, the 5584 features a rear-mounted rubber base pad featuring a 25 lb. pull-force rare earth magnet for convenient hands-free, adjustable scene lighting on demand.

Features:

- Intrinsically Safe for hazardous environments
- Rechargeable integrated lithium ion battery
- Adjustable tilting head
- IP-67 Dustproof / Waterproof
- Meets requirements of NFPA-1971-8.6 (2013)
- 13 Hour Run Time
- Powerful rare earth magnetic base for hands-free operation
- 600 Lumens LED technology

ITEM #: XPR-5584GMX

DUAL-LIGHT™ FLASHLIGHT W/DUAL MAGNETS - 3 AA

This Dual-Light™ Flashlight uses an LED rated at 300 lumens paired with a high-efficiency deep parabolic reflector, creating a flashlight beam with an effective range of 201 meters. Additionally, built into the handle is a 200-lumen floodlight. Unlike the flashlight beam, the light coming out of the floodlight does not have a reflector so the light spreads out in a wide, even, unfocused pattern of light...perfect for lighting up things that are close.

Features:

- Intrinsically Safe for hazardous environments
- 3 AA batteries (included)
- Sharp focused beam for distance illumination
- IP-X7 Waterproof
- Flashlight - Floodlight - Dual-Light™
- 6 Hour Run Time
- Powerful rare earth magnetic base for hands-free operation
- 300 Lumens LED technology

ITEM #: NSP-2424YMX

UNITEC

CS UNITEC PNEUMATIC PIPE CUTTING MACHINE

Ideal for cutting iron, non-ferrous metal, HDPE, plastic, cement and concrete pipe. Compact design with a fully enclosed blade guard.

Features:

- Fast cutting of steel, ductile iron, cement, concrete, HDPE and plastic pipe
- Adjustable cutting depth; for wall thicknesses up to 2"
- Cuts 6" to 96" dia. pipe
- Guide chain ensures straight cut

ITEM #: 5 1027 0040

CS UNITEC HACK SAW

CS Unitec's power hacksaws offer a wide range of options for portable cutting of pipe, structural steel, tanks and other materials. Our saws are designed for the toughest service in refineries, power plants, utilities, offshore oil, construction, and demolition applications, and are ideal for shutdowns and turnarounds in process piping industries. The hack is safer than cutting with a welding torch in hazardous areas or confined spaces.

Features:

- Pneumatic, electric or hydraulic motor with variable speeds
- Ideal for cutting pipe, tanks, structural steel, profiles and other materials
- Designed for the toughest service in refineries, chemical plants, utilities, pipelines, construction, offshore oil and demolition applications
- Cut pipe up to 24 inch OD in one pass
- Chain clamps and profile clamps available for accurate 90° cutting of pipe and structural steel
- 2-3/8 inch stroke for heavy-duty cutting
- Ideal for cutting in confined spaces
- Accommodate heavy-duty blades up to 37 inch long
- Optional saw blade guides to increase blade stability
- Pneumatic pipe clamp system available for automatically cutting pipe; easily attaches to pneumatic hacksaw and shares same air supply
- One-year warranty

ITEM #: 5 1220 0050

CS UNITEC RECIPROCATING SAW

Ideal for cutting pipes, structural steel, pallets, and more.

Features:

- Cuts steel pipe and channel 1/2 inch to 4 inch dia., plastic pipe to 8 inch dia.
- Ideal for the toughest use in refineries, chemical plants, gas utilities, construction, offshore oil, mining, marine and demolition industries
- 1.3 HP air motor provides more power than conventional air saws
- 1 1/8 inch blade stroke for fast, efficient cutting
- Can be mounted on a pipe clamp to make 90° cuts
- Variable speed of 0-1800 strokes per minute
- Accepts universal saw blades or thicker, double-tang heavy-duty saw blades
- Molded rubber boot for ergonomic grip
- One-year warranty
- Includes Carrying Case and two No. 1001 heavy duty blades

ITEM #: 5 1217 0070

CS UNITEC PNEUMATIC CHAINSAW WITH BRAKE

Powerful air chain saw, great for plastic-cutting applications.

Features:

- Chain brake for stopping chain during kickback or repositioning of saw
- For HDPE, polyethylene, PVC, wood and more
- 25" cutting capacity
- Low maintenance and easy start-up
- Integrated water feed

ITEM #: 5 1027 0040
